Chairman & CEO's Message

Dear Shareholders,

This year, OnMobile proudly celebrates 25 years since its incorporation in September 2000. From onboarding our first customer in 2001, Orange India, now Vi, we've grown into a trusted global partner for mobile operators, consistently adapting to a dynamic industry and evolving consumer needs.

We closed FY24–25 on a strong note, with substantial growth in our gaming revenues, driven by continued momentum in subscriptions and platform adoption. This growth, along with a disciplined reduction in proportionate marketing spend, led to improved profitability.

A major financial highlight was the significant reduction in capitalised expenses, from INR 640 million in FY24 to INR 106 million in FY25, a drop of more than INR 500 million. These costs are now largely reflected in the P&L, aligning with our focus on transparency and operational rigour. As we continue to invest in our gaming portfolio, these investments are fully supported by profitable operations, creating a solid combination of top-line growth, product innovation, margin expansion, and healthy cash flows. Our net cash position at the end of Q4 stood at INR 402 million, and we are optimistic about future growth, fueled by positive operations and the monetisation of dormant assets.

Gaming remains our central growth pillar. We ended the year with 10.6 million active gaming subscribers, a 58% increase year-over-year. In March, subscription revenues reached INR 111 million (USD 1.3 million), up from INR 74 million the previous year, representing 51% growth. This is in line with our target of achieving INR 170 million (USD 2 million) in monthly gaming revenue by FY26. We made a strategic decision this year to slow the onboarding of new operators in favor of maximising revenues from existing deployments. This focus on deeper monetisation and efficient use of infrastructure improved our margins and aligns with our strategy to launch a comprehensive Gaming Platform. This platform is designed to unify all gaming offerings, from mobile games to AAA content, under a single operator-managed solution. It also includes the deployment of telco-grade gaming servers within operator networks, supported by our

global network operations and infrastructure. Our goal is to help operators capture value not just from subscriptions, but also from licensing, advertising, and transactions, in a global market growing at over 10% CAGR.

On the Mobile Entertainment side, we are seeing early signs of recovery after several years of decline. We have new contracts lined up, and our long-standing relationships with key operators continue to play a pivotal role, both in maintaining legacy products and accelerating new gaming deployments. Our Tones business closed the year with 58 million subscribers, reflecting 2% growth. Meanwhile, Videos and Infotainment, despite a drop in subscribers to 1.3 million, remain areas of strategic investment with exciting opportunities expected to materialise in FY26.

Operational efficiency remained a key focus. With a total headcount of 350 vs. 449 in FY24, and a series of targeted technological upgrades, we reduced opex by 7.8% year-over-year. Further efficiencies are expected in the coming year as we deepen our use of AI and automation. We believe our current structure gives us the agility and scale needed to meet our growth ambitions.

I would like to express my sincere thanks to all our shareholders, especially those who have supported us through many chapters of our journey. I also extend my gratitude to our dedicated OnMobile team and board, whose hard work continues to power our vision forward.

We enter FY26 with momentum, a clear roadmap, and strong foundations. It promises to be a year of meaningful progress and long-term value creation.

François-Charles Sirois

President & COO's Message

Dear Shareholders,

FY25 marked a defining year in OnMobile's journey. We remained committed to our product direction, strengthened customer relationships, and focused on building a strong foundation for long-term growth in mobile gaming and entertainment. As telecom operators expand their digital ambitions, we are seeing growing demand for platforms that offer deeper engagement, flexible deployment models and sustained monetisation. These align closely with OnMobile's capabilities, and we have consistently risen to meet these evolving needs.

This year, my return to OnMobile was meaningful to me both personally and professionally. It's a company I've long been part of, and coming back was a natural step to contribute to its next phase with focus and intent.

Our Gaming business, anchored by Challenges Arena and ONMO, grew to 120 deployments across 54 countries, reflecting our ongoing focus on reach and reliability. Over the past year, we strengthened both the gameplay experience and our social and competitive formats. We also made targeted improvements to our streaming engine for low-bandwidth conditions and expanded server coverage to key markets. These steps helped ensure smooth performance and a consistent user experience, aligning with what OnMobile has consistently stood for.

Building on our experience with ONMO, we created **The Gaming Platform (TGP)**, a single, telco-branded, modular destination for gaming, esports, video, and lifestyle content. Together, CA, ONMO and TGP represent a broader platform vision. They are designed to meet the growing demand among telecom operators for digital engagement as a core part of their services. This evolution supports consistent user engagement and opens new revenue possibilities for our telecom partners.

Our Tones business continued to contribute at scale, live with 31 telcos. In Africa and LATAM, we launched new services and deepened partnerships, reinforcing our presence in these key regions. **The Infotainment portfolio**, comprising Sports, Kids and Contests,

reached 21 operators, featuring recurring engagement built on local content.

Meanwhile, **Buzzmo** progressed from a pilot to a strategic deployment in the Middle East.

It is now evolving into a complete Customer Engagement Platform, designed to help telcos strengthen relationships with their enterprise clients and drive measurable business outcomes.

Another significant milestone this year was our agreement with a leading telecom operator in Asia to manage their complete VAS portfolio through a **Master Aggregator** model. This relationship sets the stage for deeper collaboration and reinforces our position as a trusted long-term partner in delivering value-added services.

We remain deeply aware of the role we play in the communities we serve. Our continued support for the Sankara Eye Foundation and the VAANI Deaf Children's Foundation demonstrates our commitment to long-term impact in healthcare and education.

I am proud of the passion and dedication our teams bring across geographies, and grateful for the trust placed in us by our partners and you, our shareholders.

OnMobile completes 25 years in September 2025. We are mindful of our legacy and focused on building on our strengths in the year ahead.

Bikram Singh Sherawat

Whole Time Director & CFO's Message

Dear Shareholders,

FY2024-25 was a year of significant progress toward our key milestones, with major advances in mobile gaming.

We invested in innovation and new platforms to secure long-term growth while staying disciplined on profitability. These efforts position us well for the future, as industry reports project a ~\$400 billion global gaming market by 2029 (about half from mobile gaming). Our focus on mobile gaming in emerging markets gives us a strong footing to capitalise on this growth. We now operate in 69 countries with gaming platforms live at over 120 telecom operators, reinforcing our position as a preferred partner for carriers.

In FY2025, revenue grew 11.5% (driven by gaming) and EBITDA margin was 2.5%. Profitability was impacted by a deliberate accounting change: we expensed most of our gaming R&D and launch costs in FY2025 instead of deferring them. This one-time shift compressed margins and resulted in a net loss, but it reflects the true economics of our business. Excluding this change, FY2025 EBITDA margin would have been 11.6% and PAT 5.8%.

Manpower costs fell to 19% of revenue (from 22% a year ago), and operating expenses were trimmed by 200 bps to 8%. As a result, revenue per employee rose 41% and EBITDA per employee surged 202% YoY.

Looking ahead to FY2026, we will accelerate gaming growth through organic expansion and partnerships, while boosting cash generation and profitability. Our strategy remains centered on innovation in mobile gaming, telecom partnerships, and expansion into high-growth markets. Our telecom relationships give us an advantage in emerging markets where gaming demand is rising. With a robust pipeline in Asia and Europe and a favourable industry outlook, we are well-positioned to capture growth in FY2026.

FY2025 was a transformative year, marked by revenue growth and bold investments in gaming. Our strong fundamentals, a growing subscriber base, improving operations, ample cash reserves, and a clear strategy, give us confidence in achieving our

goals. As our gaming business scales, we remain committed to improving profitability and capitalising on new opportunities in the global gaming market.

On behalf of the Board and management, I thank our valued shareholders, customers, and bankers for your continued support and trust. We enter FY2026 with optimism and determination to create long-term value for you, and we will keep you updated on our progress as we execute our strategy.

Ajai Puri is an accomplished Telecom, Media and FMCG executive with over four decades of experience starting, building, growing and transforming businesses and creating shareholder value in South Asia.

Having dedicated 17 years to Bharti Airtel Limited [NSE: BHARTIARTL], Ajai retired as the Chief Operating Officer (COO), India & South Asia in December 2021. Throughout his tenure, he spearheaded various businesses, driving strategic change, operational efficiency, and commercial excellence, yielding substantial long-term growth in market share and profitability. With over 12 years as the longest-serving member of the Airtel Management Board, Ajai is recognized for his pivotal role in transforming Airtel's market capabilities. As India Operations Director / COO, he played a monumental part in the telco's achievement of its highest-ever revenue market share of 37%. He substantially expanded Airtel's wireline broadband business, nearly doubling its consumer base. He also guided the launch of Airtel's mobile banking operations and music and video streaming apps, enhancing consumer offerings beyond mere connectivity. He was the Director and CEO of Airtel's DTH Business (2009-2011). Under his guidance, despite entering the market as the fifth operator to introduce digital TV services in India, Airtel swiftly ascended to a market share exceeding 24% within two years of its launch.

He also served as the Chairman of Cellular Operators Association India (COAI) from 2020 to 2022, an Indian non-government industry association and advocacy group focused mainly on the telecom and digital industries.

Prior to joining Bharti Airtel, he served as the Business Head & CEO at Cargill Foods India. In his 4-year tenure at Cargill, he conceptualized and launched a brand for the staple food category. Today, Cargill's food business is huge in India with ~ \$2bn revenue and it is India's 2nd largest edible oil brand.

Ajai began his career with VST India Ltd [NSE: VSTIND], an associate company of British American Tobacco (UK) [NYSE: BTI], where, in his last assignment, he led sales operations in India and the Middle East, became the youngest functional leader and was on the management board of VST.

Ajai is currently engaged with a few start-ups, advising and guiding entrepreneurs and emerging businesses and is a partner with SVP, India. He is passionate about reading and current affairs, with a keen interest in cricket and badminton. He resides with his family in Gurgaon, India, and spends much of his time travelling.

As per the provisions of Companies Act, 2013, the Board of Directors appointed Ajai Puri as Additional Director of the Company and also as an Independent Director, not liable to retire by rotation, for a term of 5 years i.e. from April 25, 2024 to April 24, 2029. Performance Evaluation Criteria for Independent Directors:

The performance evaluation criteria for independent directors is determined by the Nomination and Compensation Committee. An indicative list of factors on which evaluation was carried out includes participation and contribution by a director, commitment, effective deployment of knowledge and expertise, integrity and maintenance of confidentiality and independence of behavior and judgement.

Remuneration Policy

The Nomination and Remuneration policy devised in accordance with Section 178(3) and (4) of the Companies Act, 2013 forms part of the Board's Report. The Company's remuneration policy is based on the performance of the individual employee and the success of the Company. Through its compensation program, the Company endeavors to attract, retain, develop and motivate a high-performance workforce. The Company follows a compensation mix of fixed pay, benefits and performance-based variable pay and sharing of wealth through the Company's stock options. Individual performance pay is determined by combination of individual and business performance of the Company. The Company pays remuneration by way of salary, benefits, perquisites and allowances (fixed component) to its Whole Time Director(s). Annual increments are decided by the Nomination and Compensation Committee/Board of Directors. The shareholders at the Annual General Meeting held on September 25, 2023 approved the payment of remuneration to the non-executive directors including Independent directors, in addition to the sitting fees to be paid for attending the meetings of the Board or Committees thereof, in aggregate not exceeding an amount equal to 5% of the net profits of the Company computed in accordance with the provisions of Section 198 of the Companies Act, 2013 or Rs. 18 million, whichever is higher per annum, for a period of

three (3) years, commencing from April 1, 2024 up to March 31, 2027 and such remuneration be paid even in case of no profit or inadequate profit during the said three years period and the said remuneration be paid in such amount, proportion and manner as may be decided by the Board of Directors of the Company from time to time. Apart from the said remuneration the non-executive directors including Independent directors are also entitled to a sitting fee of Rs. 100,000/- per meeting for attending the Board and Committee meetings. The Company also reimburses out-of-pocket expenses incurred by the Directors for attending the meetings.

The remuneration paid to non-executive directors including Independent directors are within the limits approved by the members of the Company. None of the Non-Executive Directors received remuneration amounting to 50% of the total remuneration paid to Non-Executive Directors during the financial year 2024-25.

SIGNIFICANT EVENTS: 2024-25

In fiscal year 2024-25, OnMobile embarked on an exciting new chapter of growth, driven by a gaming-first strategy and continuous innovation in technology. Our mobile gaming business continued its growth with an active subscriber base surpassing 10 million users across the globe. A key highlight of the year was the genesis of The Gaming Platform, a single destination for all Gaming services, opening new possibilities through monetisation models beyond subscription, such as Platform Licensing and In-App purchases. With this addition to our gaming portfolio, OnMobile is well-positioned to be a global leader at the intersection of gaming, entertainment, and next-generation technology.

The Gaming Platform (TGP)

Recognising the broader potential of ONMO's foundational strengths, such as single sign-on, seamless UX, and an engaging gameplay loop, we developed The Gaming Platform (TGP). Designed as a modular, enterprise-grade solution, TGP extends ONMO's capabilities into a unified, telco-branded destination for casual games, cloud gaming, and esports within the telco ecosystem.

Looking ahead, TGP is set to evolve into a Telco-Led Interactive App Store, expanding beyond gaming into music, video, loyalty programs, cloud-streamed content, and everyday lifestyle experiences. This is more than a product evolution; it's a platform strategy that delivers scalable innovation, new monetisation models, and sustained user engagement. TGP is now a key pillar of our vision to enable next-generation digital ecosystems for global telecom partners.

Challenges Arena

In FY25, Challenges Arena reinforced its leadership in telco gaming by addressing growing user expectations for quality, convenience and value. The platform successfully expanded its footprint to 78 telecom operators, engaging over 6.61 million active users globally in 18+ languages. To deepen player engagement, personalised real-time push notifications were deployed, significantly improving user retention and re-engagement. New features, such as the winner ticker and winner popups, were introduced to elevate the sense of achievement and in-game excitement. Additionally, the launch of an auto-replay feature contributed to a 30% increase in gameplay sessions, enhancing the overall player experience. We enhanced the ad-centric model of Challenges Arena to unlock new revenue. By reducing visible ads and prioritising quality placements during natural gameplay breaks, we created a cleaner, more immersive experience that balances user engagement with sustainable monetisation.

ONMO

ONMO's momentum continued to build over the past year and is now live with 41 telecom operators worldwide and engaging over 4 million active users. This rapid growth highlights both the product's universal appeal and our ability to deliver compelling digital experiences across diverse markets. ONMO's content library received a major upgrade this year, with high-quality, addictive titles that quickly became fan favourites across markets, significantly boosting user engagement and satisfaction.

On the tech front, we overhauled our backend infrastructure to meet the growing scale and performance demands of modern gaming. By unifying the platform across telecom partners into a single system, we've enabled a shared gaming ecosystem where users can now compete, socialise and climb leaderboards across networks, creating a more connected and competitive experience. In parallel, we also optimised our streaming stack, enhancing storage and delivery efficiency. These upgrades significantly reduced infrastructure costs and improved response times, all without compromising reliability or scalability.

Tones

Tones remained a key pillar of innovation at OnMobile. Our subscription model has proven resilient amid regulatory and market changes, maintaining a strong base of 58 million users across 31 operators.

One of the major highlights was the in-house development and rapid deployment of an IMS Network Application Server (IMS-AS) within just one year. Beyond enhancing delivery for existing RBT users, IMS-AS establishes a solid foundation for future innovations in personalised and enriched calling experiences.

In a strategic expansion move, we re-entered the LATAM market with the successful go-live of the service for a major telco in Mexico, strengthening our regional presence and commitment to delivering value-driven mobile solutions.

To meet renewed interest from small and mid-sized telecom operators globally, we are developing a lightweight, multi-tenant, cloud-native RBT platform designed to optimise cost and improve service agility.

Videos & Infotainment

We expanded our Infotainment business with the successful launch of a single-vendor platform designed for end-to-end VAS aggregation and management, with a leading telecom operator in Asia. This platform centralises the onboarding, delivery, and monitoring of all VAS services and content partners for the operator.

In addition, for one of our major existing customers, we introduced new monetisation models, including ad-supported formats and bundled offerings designed to enhance customer satisfaction and maximise lifetime value. To further reinforce service integrity and address key customer concerns, we deployed advanced anti-fraud mechanisms, strengthening trust, transparency, and overall platform reliability.

Buzzmo

As enterprise demands continue to shift toward real-time, personalised engagement, telecom operators are seeking to enhance their communication stacks with smarter, more interactive capabilities. In response to this, we transformed our Enterprise Connect solution into Buzzmo, expanding its core architecture to include robust omnichannel support, an intuitive campaign builder, multi-modal conversation capabilities, and more. Buzzmo enables telcos to meet the personalised, high-impact communication needs of their enterprise clients. We also completed the strategic integration of Buzzmo with Gamize, creating a differentiated suite of gamified acquisition and engagement solutions. In FY25 alone, Buzzmo facilitated over 5 billion unique engagement transactions, solidifying its role as a powerful growth engine for the telco enterprise business.

Gamize

The gamification platform, designed to drive user engagement and loyalty, reported stable performance in FY25. The platform recorded a daily user engagement of approximately 1.26 million users. During the year, 372 gamification campaigns were created, covering a range of use cases such as customer retention, reward programs, and promotional activities. Over 15.65 million rewards were claimed by users during the year, reflecting sustained platform engagement. Gamize offers low-code and no-

code tools for businesses to integrate gamified experiences within their digital channels, with a focus on improving user interactions and strengthening brand loyalty.

Great Place To Work

We are proud to have been re-certified as a Great Place to Work® for the second consecutive year. This serves as an acknowledgement of the inclusive, collaborative, and trust-driven culture we continue to nurture. Assessed against global benchmarks across key dimensions such as Credibility, Fairness, and Inclusion, the certification reaffirms what we value most: our people are at the heart of what makes OnMobile a truly great place to work.

Awards

Our proprietary AI/ML-driven automation platform, OARM (OnMobile Automation and Release Management), was honoured with the Best AI & ML-Based Automation Tool award at the 5th Edition of the DevOps Conclave. Fully developed in-house, OARM has been a cornerstone in transforming DevOps at OnMobile. By automating complex release cycles, optimising deployments, and minimising manual intervention, the platform has driven an 85% boost in operational efficiency and a 30% reduction in deployment-related costs. Its scalability, intelligent workflows, and seamless integration capabilities continue to redefine standards in business and operational automation.

MATERIAL CHANGES FOR THE PERIOD BETWEEN END OF THE FINANCIAL YEAR AND THE DATE OF THE REPORT

There have been no material changes for the period between end of the financial year 2024-25 and the date of this report affecting the financial position of the Company.

OPERATIONAL EFFICIENCY

Over the past year, we undertook multiple strategic initiatives to enhance operational efficiency, reduce costs, and build a strong foundation for future profitability.

In our gaming business, we optimised digital marketing spend by refining the channel mix, shifting from ad networks to Google Ads, and focusing on scaling high-margin accounts while exercising judicious spending on new accounts. These measures delivered a 10% approximate reduction in marketing costs from Q4FY24 to Q4FY25. We also re-architected our backend systems to deliver the scale, performance, and flexibility required by modern gaming offerings, unifying previously separate systems into a single platform capable of serving millions of users globally across multiple games and partner offerings. Through these backend optimisations and architectural refinements, we achieved around a 25% reduction in infrastructure costs and improved average response times by over 40%, without compromising reliability or scalability.

Focusing on quality over quantity in content and using ROI as the key benchmark, we optimised costs across gaming, tones, videos, and infotainment by bundling offerings and renegotiating with content partners. While this resulted in

a modest reduction in content costs in FY25, the full-year impact is expected to contribute to higher margins in FY26.

Across our engineering function, we scaled Automation and AI adoption to boost productivity and operational resilience. Our proprietary platform, OARM (OnMobile Automation and Release Management), reached 92% rollout coverage, automating deployments, migrations, and maintenance workflows, which accelerated time-to-go-live, streamlined updates, and reduced deployment risk. Recognised at the 5th Edition of the DevOps Conclave in Bangalore as the Best Machine Learning Based Automation Tool, OARM was complemented by an AI-based anomaly detection system that enhances predictive incident management and reduces mean time to detect. Additionally, we integrated AI-assisted development tools for code generation, documentation, refactoring, and test automation, delivering 20 to 35% productivity gains in routine tasks and up to 70% in specialised stack porting, while actively managing risks related to code quality, security, and over-reliance on AI outputs.

During the year, we also improved sales efficiency by implementing a centralised CRM system to streamline lead management, track opportunities, and strengthen customer engagement. The platform provides real-time visibility into the sales pipeline, enabling faster response times, better follow-ups, and improved conversion potential, while creating a scalable foundation for managing a larger pipeline and enhancing collaboration.

Collectively, the optimisation of marketing, infrastructure, and content costs, coupled with our automation-led engineering transformation and enhanced sales efficiency, has significantly lowered our cost base, improved operational scalability, and increased organisational agility. The resulting efficiency gains also enabled us to streamline headcount from 449 in FY24 to 350 in FY25. Together, these initiatives position us to translate efficiency improvements into higher margins and profitable growth in the coming year, while continuing to invest in automation, AI innovation, product scalability, and engineering excellence.

RESEARCH AND DEVELOPMENT

Developer Platform

We designed and launched a new platform experience that empowers game developers and publishers to bring their games to users faster, with fewer barriers and broader reach. This cloud-powered system allows developers to distribute their games using a single smart link that works across mobile devices, browsers, and apps, eliminating the need for complex packaging, app store submissions, or heavy installs.

To enhance game discovery, we introduced interactive gameplay previews that let users instantly try engaging

moments from a game. This creates a powerful entry point from promotional campaigns into the whole game experience, improving player conversion and retention.

A streamlined developer interface enables easy onboarding, centralised visibility into game performance, and simplified control over game updates. Together, these efforts reduce time-to-market for developers and unlock new ways to acquire and engage users.

Social Features & Livestreaming

This year, we evolved our gaming experience into a connected ecosystem where players across regions and networks can watch and engage with each other in real time. Livestreaming is no longer siloed, and users can now view live gameplay sessions across all supported telcos, enabling greater visibility and fostering a unified gaming community.

We also extended real-time control sharing to work seamlessly across telcos and geographies. Players can now pass control of an ongoing session to others, regardless of network or region, allowing for collaborative and assistive play across previously disconnected user groups.

These enhancements have helped increase the visibility of engaging gameplay streams by over 2x, creating more opportunities for discovery and participation.

Premium News & Magazine Aggregator Platform

We also identified a market gap through close collaboration with leading telcos in developed markets, centred on the fragmented content experience spread across multiple apps, logins, and costly premium sources. To address this, we developed a unified premium content hub that integrates directly into telco customer touchpoints, giving millions of subscribers frictionless access to premium and personalised content. The platform offers one subscription for premium news from hundreds of newspapers, an extensive eNewspaper and eMagazine catalogue, live news and sports scores, AI-driven personalised feeds, localised news streams, and multi-format content including video, audio, curated newsletters, and podcasts, all within a single, beautifully designed interface that helps telcos boost engagement, reduce churn, and create new subscription revenue streams.

Native Apps

As part of our effort to extend platform reach, we developed a way to deliver native-like apps across mobile and TV platforms using our existing web-based technology. This gives us the ability to launch full-featured applications on Android, iOS, and Smart TVs with minimal additional effort.

These apps retain the responsive design and dynamic content of our core platform, while offering platform-

specific enhancements such as deep linking, offline behaviour, and better integration with device features. This approach has reduced the time and effort required to support new device ecosystems by nearly 60% while maintaining consistency across platforms.

CORPORATE SOCIAL RESPONSIBILITY

The Board of directors, pursuant to recommendation of the Nomination and Compensation Committee, dissolved the Corporate Social Responsibility Committee w.e.f May 14, 2024 considering the CSR spent was less than the threshold of 50 lakhs stipulated under Section 135(9) of the Companies Act, 2013 in FY'24 and FY'25. Hence, functions of CSR Committee shall be discharged by the Board of Directors for the time being.

OnMobile currently supports Sankara Eye Foundation, India, which works in the space of eliminating curable blindness, and VAANI, which works in the space of communication and enablement of hearing-impaired kids in remote parts of Karnataka. In the fourth year of our partnership with Sankara, we supported in setting up Antares + Corneal Topographer at Sankara Eye Hospital, Ludhiana. This will be used in approximately 2500 free surgeries every year.

We are happy to support Sankara Eye Foundation in setting up Antares + Corneal Topographer at Sankara Eye Hospital, Ludhiana. VAANI, while continuing their awareness, education and detection programs in Tumkur, started a dedicated Teacher Training Program to sensitize Sarva Shiksha Abhiyan faculties on how to cater to children with hearing impairment.

SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED **MARCH 31, 2025**

(Pursuant to section 204(1) of the Companies Act, 2013 and Rule 9 of the
Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014)

To,
The Members,
Onmobile Global Limited,
E City, Tower 1,
94/1C and 94/2, Veerasandra Village,
Electronic City Phase 1,
Bengaluru - 560 100
Karnataka, India

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Onmobile Global Limited** (hereinafter called the Company). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on March 31, 2025 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on **March 31, 2025** and made available to me, according to the provisions of:

- i. The Companies Act, 2013 ("the Act") and the rules made thereunder;
- ii. The Securities Contracts (Regulation) Act, 1956 ("SCRA") and the rules made thereunder;
- iii. The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- iv. Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment and Overseas Direct Investment, if any;
- v. The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ("SEBI Act"):-
 - (a) The Securities and Exchange Board of India

(Substantial Acquisition of Shares and Takeovers) Regulations, 2011;

- (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
- (c) The Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021;
- (d) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015;

vi. Other laws applicable specifically to the Company, namely:

- (a) The Information Technology Act, 2000 and the rules made thereunder;
- (b) The Special Economic Zones Act, 2005 and the rules made thereunder;
- (c) Software Technology Parks of India rules and regulations;
- (d) The Indian Copyrights Act, 1957; (Not Applicable to the Company during the year)
- (e) The Patents Act, 1970; (Not Applicable to the Company during the year) and
- (f) The Trade Marks Act, 1999. (Not Applicable to the Company during the year)

I have also examined compliance with the applicable clauses of the (i) Secretarial Standards issued by The Institute of Company Secretaries of India (ii) The Listing Agreements entered into with Stock Exchanges.

I report that, during the year under review, the Company has complied with the provisions of the Acts, Rules, Regulations, Guidelines and Standards mentioned above.

I further report that, there were no events/actions in pursuance of:

- a) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018;
- b) The Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) Regulations, 2021;
- c) The Securities and Exchange Board of India (Registrars

to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client; (Not applicable to the Company) and

- d) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2021; and
- e) The Securities and Exchange Board of India (Buy-back of Securities) Regulations, 2018;

requiring compliance thereof by the Company during the audit period.

I further report that, the compliance by the Company of applicable financial laws such as direct and indirect tax laws and maintenance of financial records and books of accounts have not been reviewed in this Audit since the same have been subject to review by the statutory financial auditors, tax auditors, and other designated professionals.

I further report that, the Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board meetings, and except in case of meetings called with shorter notice to transact urgent business, agenda and detailed notes on agenda were sent at least seven days

in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

As per the minutes of the meetings duly recorded and signed by the Chairman, the decisions of the Board were unanimous and no dissenting views have been recorded.

I further report that, based on the information provided and the representation made by the Company and also on the review of the compliance certificates/reports taken on record by the Board of Directors of the Company, in my opinion there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

I further report that, the company has obtained approval of the shareholders through Postal Ballot dated January 17, 2025 for issues of equity shares and /or equity linked securities by way of Qualified Institutional Placement (QIP) for an aggregate amount of up to Rupees 300 crore. As on March 31, 2025 the issue has not been made.

Except as above there were no other specific events/actions in pursuance of the above referred laws, rules, regulations, guidelines, etc. having a major bearing on the Company's affairs during the audit period.

Management Discussion & Analysis

MARKET OVERVIEW

The global mobile gaming industry stands at an inflection point, experiencing unprecedented growth fueled by innovation, connectivity, and evolving consumer preferences. With smartphones in the hands of over four billion users worldwide and growing 5G coverage, mobile gaming has evolved into a universally accessible, high-quality entertainment experience. It is the largest segment in the global gaming industry, valued at USD 118 billion in 2024 and projected to reach USD 164 billion by 2030. Mobile gaming accounts for 55% of total gaming revenue, with active users growing at 9% annually in 2024.

This transformation is fueled by advances in smartphone capabilities, affordability, and the rise of hyper-casual games, esports, and cloud gaming, removing barriers to entry and making gaming accessible to a broader audience. In 2024, global users spent an average of 20 to 30 minutes daily on mobile games, across age and genres. Engagement spans demographics, with strong traction among youth, women, and older users alike. Monetisation is rising, with global ARPU at USD 7.6, supported by in-game purchases and subscriptions. Infrastructure shifts, including 5G rollout and cloud adoption, are further strengthening mobile gaming as a fast, social, and always-on experience.

Alongside gaming, the global Ringback Tones (RBT) market, valued at USD 5 billion in 2023, is projected to reach USD 6.67 billion by 2030, growing at a CAGR of 4.2%. It remains a relevant digital segment, primarily in emerging markets, driven by continued demand for mobile personalization and strong integration with telecom platforms. Similarly, the mobile VAS market, with a CAGR of 8.8% is seeing increasing traction for contests, trivia and short-form videos in mobile-first markets.

Opportunities

The mobile gaming industry is entering a phase of extraordinary opportunity, driven by evolving customer preferences, rapid technological innovation, and the increasing socialisation of digital entertainment. From pixel-based classics like Snake to viral hits like Candy Crush, and now to real-time multiplayer, immersive racing, shooting, and VR titles, mobile gaming has rapidly evolved in quality and depth. It is no longer just a pastime but a core part of digital lifestyles. This transformation creates a strong foundation for us to lead.

With a legacy of innovation and deep expertise in telco monetisation, we are uniquely positioned to bridge the gap between immersive gaming and telecom-driven business models, expanding our global presence and relevance.

We have a proven track record of defining what digital engagement looks like. Our innovation DNA is proven, as we were the first to launch RBT in emerging markets, introduce voice-enabled IVR, and develop micro-billing tailored to telco users. Our foundation in mobile-first innovation has naturally positioned us to lead in the mobile gaming space as we captured the first wave of gamers with lightweight, casual HTML5 games through Challenges Arena, then evolved into social and cloud-based formats with ONMO, and now offer The Gaming Platform (TGP), an interactive store of games and digital entertainment which thrives on providing instant access to best digital content to telco users enhanced via core-loop-driven ecosystem built for scale.

We have access to over 2 billion subscribers across 125 operator partnerships, giving us unmatched reach. With deep expertise in user behaviour across languages, devices, and content types, our products are optimised for high-frequency use.

Our strength lies in understanding what drives sustained user interaction. We design for daily use and repeat engagement enabled by mechanics such as core loops, tournaments, personalised recommendations and rewards.

Our deep understanding of mobile user behaviour is reflected in the way we design for engagement. Our platforms support multi-language interfaces that cater to diverse regional audiences and offer a wide range of content formats, including casual, skill-based, cloud-based, and esports titles. The user experience is optimised for low-spec, low-data environments with immersive, low-friction design. Seamless onboarding is enabled through integrated billing and frictionless subscription flows. We drive high-volume outreach through targeted multichannel campaigns, with tailored user segments focused on youth, first-time gamers, and mid-core players, ensuring both scale and relevance in user acquisition and retention.

This layered understanding allows us to serve different user cohorts while maximizing LTV and reducing churn, making our platforms valuable assets for operators targeting digital growth.

The rapid ascent of esports, with over 540 million active players globally, has further transformed gaming into a participatory and spectator-driven phenomenon, drawing interest from a wider range of demographics. We are well-positioned to capitalise on this momentum by developing competitive, socially immersive mobile gaming experiences, catering to the demand for seamless multiplayer experiences. In parallel, we are in advanced discussions with telecom operators to include our gaming and entertainment

services within bundled packages, offering consumers greater value and simplifying service management. Additionally, licensing partnerships with leading operators for its gaming platforms are being explored, which will open further channels for market expansion and brand reinforcement.

In addition to mobile gaming, we continue to build on the strength of our legacy products. Tones remains a high-volume, low-churn service, live across 31 operators with renewed relevance through personalisation, telco bundling and deep platform integration across markets. We're developing a lightweight, multi-tenant, cloud-native RBT platform to meet growing demand from small and mid-sized telecom operators, with a focus on cost efficiency and faster service delivery. This next-generation approach reduces capital expenditures (capex) and operating expenditures (opex), accelerates deployment timelines and ensures easy management across multiple geographies or operator groups. Our Contests, Videos & Editorials are enabling telcos to extend session time through interactive formats, daily participation, and reward-based engagement. Infotainment and full-stack MVAS aggregator platform addresses key telco needs for a centralised, secure, and scalable solution to drive user engagement and revenue.

With a mobile-first philosophy deeply embedded in our DNA, we are investing heavily in proprietary platforms, edge computing, AI-driven personalisation, and socially connected features, actively shaping the industry's future.

As infrastructure improves, the rollout of 5G, availability of low-cost smartphones, and rising digital literacy, the rise of mobile gaming and entertainment is becoming increasingly universal. Strategic expansion into areas such as digital entertainment, streaming services, enhanced mobile calling, communication platforms as a service, and interactive content ecosystem will allow us to diversify our offerings, meet the growing appetite for integrated digital experiences, and solidify our position as a leader in mobile-first engagement. We are uniquely positioned to capture this growth, thanks to decades of product-market fit across telcos, proven scale and engagement expertise and platforms that combine entertainment and monetisation.

From being pioneers in mobile entertainment to becoming enablers of the next gaming wave, we are poised to lead.

Threats

The mobile gaming and entertainment industry brings with it a set of formidable external challenges that we must anticipate and navigate to sustain our leadership position.

Telecom operators are realigning their strategic focus toward infrastructure expansion, 5G and 6G rollout, enterprise solutions and digital finance. As a result, value-added services could often be deprioritised, which could result in limiting our inclusion in premium bundles that drive

user acquisition and retention, reducing both platform visibility and monetisation potential. Operators are also investing in first-party digital ecosystems, which further narrows promotional bandwidth for third-party offerings like ours.

Meanwhile, user attention continues to shift toward short-form video, OTT content, and social platforms that offer continuous, personalised engagement. In this crowded landscape, sustaining relevance requires us to deliver lightweight, immersive and differentiated gaming experiences at scale. At the same time, user expectations for free or low-cost access to high-quality content create ongoing pressure on monetisation models.

Competitive pressure from global gaming giants and emerging digital-first players is accelerating. The bar for multiplayer, socially connected, and device-agnostic experiences continues to rise. Delivering such experiences, especially in bandwidth-constrained or low-spec environments, demands sustained technical investment and agility.

In the value-added services and enterprise communication segments, service continuity remains unpredictable. Telcos can terminate services based on various factors, such as internal reviews or leadership changes, irrespective of performance.

There is also the added pressure of tightening global regulatory scrutiny around data usage, billing transparency, and user consent. Compliance across jurisdictions is complex and resource-intensive, with non-compliance posing risks of penalties, service blocks, or erosion of consumer trust.

These external forces underscore the need for constant innovation, operational resilience, and closer integration with evolving telco priorities to protect and grow our position in the market.

Risks and Concerns

As a telco-first business, we remain dependent on user interface positioning, promotional bandwidth, and short-term marketing decisions. Any shift in these factors can directly affect user acquisition, engagement and monetisation. Meanwhile, telcos' increasing investment in in-house communication platforms could gradually reduce the role of external communication partners unless we continue to evolve our value proposition.

With acquisition costs rising and attention spans shrinking, it is essential to invest in personalised, immersive experiences that drive engagement and reduce churn. This includes not only attracting new users but also deepening loyalty among existing ones. Monetisation remains a delicate balance: while in-game purchases and subscriptions are vital revenue streams, overly aggressive tactics risk user alienation, while conservative approaches can limit growth

and margins. Transparency, fairness, and user-centric design must remain central to all monetisation efforts. Meanwhile, rising demand for talent in gaming, AI, and telecom integration presents delivery risks, as capability gaps could delay product rollouts or weaken platform competitiveness.

Tightening regulations around data privacy, consent, and billing transparency add further operational demands. Maintaining compliance across multiple jurisdictions requires disciplined governance, adaptable systems, and market-specific oversight. Macroeconomic variables such as currency fluctuations, inflation, and geopolitical uncertainty increase operational complexity, particularly in multi-market deployments. These can affect pricing, collections, and cost structures in unpredictable ways.

In conclusion, through focused investment in platforms, diversification of partner models, regulatory preparedness, and sustained innovation, we are well-positioned to respond with agility and build lasting resilience.

Product-Wise Performance

The Gaming Platform

Building on ONMO's momentum and learnings, we launched The Gaming Platform (TGP), a flexible, telco-branded ecosystem that combines casual and cloud gaming, esports, video content, rewards, and lifestyle services into a single, integrated destination. With over 70% of operators now investing in bundled digital services to boost customer retention and ARPU (GSMA, FY25), TGP directly aligns with this evolving strategic focus.

FY25 also marked a significant industry shift, with mobile gaming contributing more than 55% of global gaming revenue and cloud gaming adoption accelerating across high-growth markets. These trends further validate our long-term vision.

As TGP evolves into a Telco-Led Interactive App Store, it positions operators at the centre of the digital lifestyle, driving sustained engagement through innovation, relevance, and scale.

Challenges Arena

With 6.61 million active users and its footprint across 78 telecom operators globally, we reinforced our leadership in telco gaming. Responding to evolving market dynamics and rising user expectations, we have initiated a comprehensive revamp of Challenges Arena to deliver a more seamless, engaging, and premium gaming experience.

Central to this transformation is the introduction of an immersive, premium UI that elevates both visual appeal and user interaction. In parallel, we have curated a high-quality game catalogue designed to increase user playtime

and drive deeper engagement. Building on this foundation, we are optimising monetisation by blending ads more natively within the gameplay, ensuring they complement rather than disrupt the user experience. Collectively, these initiatives aim to convert increased engagement into sustained revenue growth, reinforcing a monetisation strategy focused on long-term value and user satisfaction.

ONMO

ONMO continued to build strong momentum in FY25, expanding its presence to 41 telecom operators and engaging over 4 million users globally. With its focus on immersive gameplay, instant access, and bite-sized challenges, ONMO has consistently delivered high engagement and stickiness, translating into measurable value for telco partners.

In a landscape where telcos are bundling digital services to drive retention and ARPU, ONMO's unique combination of casual and cloud gaming offers a compelling value-added proposition. Its cloud-based architecture enables instant, device-agnostic access with no downloads, while the curated catalogue of casual games appeals to a broad segment of users. This blend helps telcos differentiate their digital offerings and deepen user engagement, thereby unlocking new revenue streams.

Tones

We continued to lead in Ringback Tones (RBT) innovation, driven by integration of Generative AI and the growing demand for personalised user experiences. A successful pilot with a major telecom operator in Egypt marked our first AI-augmented tones service for a limited base, paving the way for intelligent content personalisation.

To improve adoption, we introduced innovative go-to-market (GTM) strategies, bundling RBT offerings with telecom tariff plans in India, with similar models under evaluation in other regions. We are also developing a lightweight, multi-tenant RBT platform to meet the growing needs of small and mid-sized telecom operators.

We strengthened our LATAM presence with a launch in a major telco in Mexico and delivered a key tech milestone: the in-house development and deployment of an IMS Application Server, now powering RBT over VoLTE on the telco's network.

As we scale, we remain committed to enhancing the mobile calling experience through innovation and global reach.

Videos & Infotainment

As a well-planned move to boost subscription awareness and increase customer satisfaction, we enhanced user acquisition flows and streamlined product selection, while reducing marketing expenses and content costs.

Internalising key technological capabilities led to significant COGS savings and improved overall efficiency. These improvements have made the business more agile and cost-efficient, amid strategic recalibration by telcos in the digital content space.

Amid growing VAS complexity, our Master VAS Aggregator, a full-stack, cloud-ready solution, simplifies onboarding, centralises content and policy control, and integrates robust anti-fraud safeguards. Deployed with a leading Asian telco, it doubled revenue for high-performing services, reduced complaints, and improved uptime. As telcos seek faster rollouts, regulatory compliance, and operational efficiency, our scalable, rapid-to-market, and service-integrity-focused platform is poised to drive future growth across global VAS partnerships.

Buzzmo

The enterprise communication landscape is undergoing a significant transformation, fundamentally driven by the recognition that meaningful customer engagement is paramount to business success. This has catalysed an accelerated adoption of social messaging channels by enterprises eager to foster more direct and interactive relationships with their customer base. Observing this shift, telecom operators are strategically manoeuvring to play a more substantial role within this ecosystem. To achieve this, telcos are increasingly favouring a multi-vendor approach for their CPaaS and customer engagement platform strategies, enabling them to flexibly assemble best-in-class solutions rather than being locked into a single, monolithic system.

In direct alignment with these market trends, our product strategy has focused on both foundational strength and targeted innovation. We have successfully achieved full feature and channel parity across our core functionalities, establishing a robust and consistent platform. Building upon this foundation, we have implemented high-impact, region-specific features such as Voice Notes over digital channels and gamified customer acquisitions on Line Messenger. To power these new capabilities, we successfully completed a strategic integration with Gamize, enabling us to offer a robust suite of gamified acquisition and engagement use cases to our clients.

Gamize

Gamize, our low-code gamification platform, maintained steady momentum in FY25 with approximately 1.26 million daily engaged users and a 37.5% increase in revenue, reaching INR 2.1 million. Adoption continued to expand across industries to support use cases like customer retention, reward programs, and product promotions.

With nearly 80% of enterprises prioritising customer engagement tools to improve retention and lifetime value in FY25 (Forrester, 2025), Gamize is well-positioned to meet

this demand. Over 15.6 million rewards were claimed during the year, highlighting strong user participation. By offering no-code tools for easy integration into digital touchpoints, Gamize enables brands to build deeper connections and foster sustained loyalty at scale.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

Internal control and risk management are necessary prerequisites of corporate governance. The Corporate Governance Policy guides the conduct of affairs of the Company and clearly delineates the roles, responsibilities and authorities at each level with an adequate system of internal controls. This ensures that all transactions are authorized, recorded and reported correctly, and assets are safeguarded and protected against loss from unauthorized use or disposition. Properly documented policies, guidelines and procedures laid down for this purpose stand widely communicated across the enterprise to provide the foundation for Internal Financial Controls with reference to the Company's operations and financial statements. Such Financial Statements are prepared on the basis of Significant Accounting Policies, in line with the applicable Accounting Standards, that are reviewed by management and approved by the Audit Committee and the Board.

The Company recognizes that any internal control framework, no matter how well designed, has inherent limitations and accordingly, regular audit and review processes ensure that such systems are reinforced on an ongoing basis.

The Company has a set of Standard Operating Procedures (SOPs) that have been established for individual processes. In addition to this, the Company has identified and documented the risks and control for each process that has a relationship to the operations and financial reporting. The Company uses SAP and other internally developed ERP systems as a business enabler and also to maintain its Books of Account. The SOPs in tandem with transactional controls built into the ERP systems, ensure appropriate segregation of duties, approval mechanisms and maintenance of supporting records. The Information Management Policy reinforces the control environment. The systems, SOPs and controls are reviewed by the management and audited by Internal Auditors whose findings and recommendations are reviewed by the Audit Committee and tracked through to implementation. The Company has in place adequate internal financial controls with reference to the Financial Statements. Such controls have been assessed during the year, taking into consideration the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by The Institute of Chartered Accountants of India. Based on the results of such assessment carried out by management, no reportable material weakness or significant deficiencies in the design or operation of internal financial controls were observed.

MATERIAL DEVELOPMENTS IN HUMAN RESOURCES

Talent Acquisition

The year 2024-25 has seen significant shifts in hiring patterns due to global economic uncertainties, including geopolitical tensions and inflation. Companies have become more cautious, leading to a mix of hiring freezes and strategic recruitment. The rapid advancement of technologies like AI and automation has reshaped job roles, increasing the demand for tech-savvy professionals.

In line with these trends, OnMobile experienced an attrition rate of 33% but continued hiring for critical roles and tech freshers. The company onboarded around 26 resources across India, South Africa, and Mexico, achieving a 96% acceptance ratio and a 19% increase from the previous year. This success was driven by the trust earned through referrals and constant candidate engagement.

OnMobile primarily filled positions through referrals and internal conversions, which contributed to 69% of the recruitment source. Additionally, 7 offers released for on-campus hiring in FY 2023-24 resulted in a 100% joining ratio.

Looking ahead, OnMobile plans to focus on leveraging the referral system and cost-effective job portals as primary recruitment sources, while offering competitive compensation and benefits to attract top talent.

Talent Management & Employee Engagement

In addition to delivering interventions in line with our business needs, we aimed to make our learning efforts more customised and employee-led in FY 2024-25 by encouraging people to take up certifications and courses suited to their individual roles and aspirations in consultation with their managers. We opened the opportunity to pursue certifications on topics such as Masters in AI, AI in Content Management, KAFKA Training and Conflict Management. Along with the previously mentioned trainings there were trainings conducted on Secure Software Development Lifecycle, IPR Training and training on Data Protection Laws.

Access to learning platform like Coursera has supported employees in upskilling.

A quick summary of the interventions for this year is given below –

Type of Intervention	Trainings	Target Audience	No. of employees covered	Total person-hours	Total person days*
Behavioural/ Leadership/ Managerial ILTs	Conflict Management	All employees (Spain, France, and LATAM)	9	8	9
Technical/Functional ILTs	UX/UI Design	Marketing Manager (Europe & Americas)	1	36	4.5
	AI in Content Management	Employees (Spain, France, and LATAM)	2	75	9.3
	Master AI advanced	Director Sales (Europe & Americas)	1	76	9.2
	Coursera License	Program Management (Spain and LATAM)	1	10.4	1.3
	KAFKA Training	Technology Team employees	24	24	72
	Data Protection Laws	Legal Team Employees	3	8	1
	Secure Software Development Lifecycle	Technology	146	1.5	27.37
	IPR Training	Across Org	239	1	29.8
Total			426	240	33.3

*One - person day = 8 hrs of training

As seen from the table above, we have covered nearly 426 employees (non-unique) through different interventions. These interventions were global, across geographies.

Apart from the aforementioned interventions, our induction program was revamped with inputs from previous year H2 joiners and quarterly induction programs were conducted as part of onboarding new hires to give an overview of different Business Units, policies and systems at OnMobile. We conducted three batches of induction in FY 2024-25 all new joiners. R&R continued in the form of monthly recognition as Above & Beyond Awards and quarterly excellence Awards for recognizing accomplishments and contributions as Rockstar and Dynamos.

During FY 2024–25, we conducted diverse employee engagement activities to foster a positive and inclusive work culture. A parenting session by expert Mrs. Anju Arora on “Navigating Parenthood” supported working parents. The high-energy Shuttle Smash badminton tournament promoted fitness and team spirit. We celebrated International Women’s Day with empowering activities, and Ethnic Day showcased our cultural diversity. A fun-filled Treasure Hunt encouraged collaboration, while Christmas celebrations brought festive cheer with games. These initiatives contributed to employee well-being, team bonding, and a vibrant workplace environment, aligned with our commitment to engagement, inclusivity, and holistic employee experience.

		Talent management at OnMobile aligns the work culture with global standards, boosting employee loyalty and efficiency. Recruiting locally not only helps retain talent but also demonstrates the company's commitment to community development.	Additionally, OnMobile employs a Talent Acquisition Procedure to ensure the recruitment of highly skilled professionals capable of delivering top-tier services to clients worldwide.	
Customer Centricity	Risk/ Opportunity	OnMobile, as a provider of mobile entertainment products and solutions, can gain advantages by prioritizing customer-centricity. This involves tailoring products and services to match customer needs and preferences, which can help attract new customers and retain current ones. However, focusing on customer-centricity also comes with notable risks, such as the costs involved and the risk of users engaging in excessive mobile game usage.	By addressing the associated risks, OnMobile can capitalize on the benefits of customer-centricity and maintain its competitive position in the market. Our products cater to a diverse customer base, making it crucial to consistently simulate, evaluate, and refine our product development strategies to align with customer interests and engagement. OnMobile plans to introduce features that enable users to monitor and control their gaming time, along with providing resources on responsible gaming. Additionally, OnMobile is committed to strictly following mandated warnings and guidelines, including those pertaining to children's content, set by regulatory authorities for gaming companies where applicable. Governance and Ethical Practices

Upholding rigorous standards of governance and transparency remains a top priority. We have strengthened our compliance mechanisms and internal controls, ensuring adherence to all applicable laws and regulations. Our robust whistle-blower policy continues to be a vital tool for maintaining transparency and addressing stakeholder concerns effectively.

Achievements and Future Goals

In the financial year 2024-25, we continued achieving several significant milestones in our ESG journey:

- We achieved a notable reduction in carbon emissions and implemented a comprehensive waste segregation and recycling program across all our offices.
- We Have implemented employee wellness program to promote health and well-being among our staff.
- We have improved our approach to ensure and adhere to legal standards and ethical practices.

Looking ahead to financial year 2025-26, we have set ambitious targets to further enhance our ESG performance:

Environmental Goals:

- **Reduce Carbon Emissions:** Aim to become carbon neutral by 2030 by using less energy, switching to renewable energy, and offsetting emissions.
- **Reduce Waste:** Set a goal to send zero waste to landfills by improving recycling and using eco-friendly materials.
- **Save Resources:** Reduce water use and adopt sustainable material procurement.

Social Goals:

- **Diversity and Inclusion:** Focus on increasing diversity in the workforce, promoting gender equality, and hiring people with disabilities.
- **Help Communities:** Expand partnerships with local organizations to improve education, healthcare, and skills for underprivileged communities.
- **Employee Well-being:** Improve health and safety standards, focusing on both physical and mental health for employees.

Governance Goals:

- **ESG Reporting:** Publish annual ESG reports that follow global standards and meet India's new reporting requirements.
- **Data Protection:** Improve cybersecurity and privacy policies to comply with India's new data protection laws.

We are resolute in our commitment to conducting our business operations in a responsible and sustainable manner. Our robust ESG initiatives are designed not only to benefit our stakeholders but also to ensure the long-term success and resilience of OnMobile Global Limited.

Thank you for your ongoing support and trust.

Warm regards,

Engaging with stakeholders is also crucial for identifying and managing potential risks and opportunities within the company's business operations, ensuring that OnMobile remains responsive and proactive in its strategic planning and execution.

The processes for identifying key stakeholder groups include:

- **Stakeholder Mapping:** OnMobile conducts a stakeholder mapping exercise to categorise stakeholders based on their influence, interest, and relevance to the business. This includes analysing relationships across internal and external groups.
- **Engagement Mechanisms:** The company uses structured surveys, workshops, and consultations with internal teams and external entities to identify key stakeholders.
- **Feedback and Reporting:** Regular feedback loops, through mechanisms such as employee feedback sessions, customer satisfaction surveys, and vendor assessments, help refine the identification process.
- **Collaboration with Management:** Management actively participates in identifying stakeholders, leveraging their insights into operational and strategic priorities.
- **Review and Revision:** The stakeholder list is periodically reviewed and updated to reflect changing business needs and external environments.

The key stakeholders identified through these processes are:

- Directors
- Shareholders
- Telecom Businesses

- Employees
- Other suppliers, partners, and collaborators
- Customers and Vendors
- Governments, NGOs, local communities, regulators, and society at large.

2. List stakeholder groups identified as key for your entity and the frequency of engagement with each stakeholder group:

LEADERSHIP INDICATORS

1. Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.

OnMobile is committed to engaging its stakeholders proactively to address economic, environmental, and social topics, aligning with voluntary disclosure of BRSR and ongoing efforts to strengthen its environmental and social pillars.

a. Processes for Consultation:

Stakeholder Identification and Engagement: Inputs from shareholders, telecom businesses, employees, suppliers, customers, governments, NGOs, and local communities are gathered via town halls, surveys, meetings, and feedback forms on key topics such as economic performance, sustainability, and social responsibility.

b. Committee Involvement:

- The Risk Management Committee evaluates ESG risks and opportunities.
- The Stakeholders Relationship Committee addresses grievances and reviews engagement measures.
- The Nomination and Compensation Committee ensures alignment with long-term goals.

c. Feedback Mechanism: Feedback is summarised, reviewed by relevant committees, and presented to the Board during quarterly meetings to inform strategic decisions. OnMobile integrates stakeholder concerns into Board discussions, reinforcing its commitment to sustainability and inclusive growth.

2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.

Stakeholder input plays a critical role in identifying the material topics for OnMobile. The development of our policies and procedures is influenced by ongoing feedback from these engagements.

The selection of material topics for OnMobile was achieved through careful discussions with a range of stakeholders, including top executives, and also by addressing potential risks identified in the risk register.

3. Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalized stakeholder groups.

(Y/N) : No

5. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

As the Company restricts water usage to human consumption only and has not adopted a zero liquid discharge system. The office of the Company is housed in a leased building alongside other tenants. All wastewater generated on the property is processed at a shared Sewage Treatment Plant (STP), which is controlled by the landlord. After treatment, the water is recycled and repurposed for domestic use within the building. The landlord oversees the complete maintenance and operation of the STP, ensuring the wastewater is treated and recycled effectively.

6. Please provide details of air emissions (other than GHG emissions) by the entity in the following format :

Not applicable

7. Please provide details of green house gas emissions (Scope 1 & Scope 2) and its intensity in the following format:

Parameter	Unit	FY 2024-25 (Current Financial Year)	FY 2023-24 (Previous financial year)
Total Scope 1 emissions (Break-up of the GHG into CO₂, CH₄, N₂O, HFCs, PFCs, SF₆, NF₃, if available)	tCO ₂ e	21.0	12

8. Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details

The organisation undertook various energy efficiency and waste management initiatives to reduce greenhouse gas emissions and optimise operations. Conventional lighting was replaced with energy-efficient LED lights, significantly reducing electricity consumption and heat generation. HVAC systems were upgraded, and smart thermostats were installed to ensure optimal temperature control based on occupancy, complemented by regular maintenance for improved efficiency. In the server room, servers were consolidated and virtualised, with energy-efficient equipment deployed to lower power usage.

Waste management efforts included establishing a formal e-waste recycling system in partnership with certified recyclers and adopting digital document management practices to minimise paper usage. Application code was streamlined to decrease processing power and server load, further lowering emissions. These initiatives not only reduced the environmental impact but also enhanced operational efficiency and cost savings, reinforcing the organisation's commitment to sustainability.

9. Provide details related to waste management followed by the entity in the following format:

- 10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.**

The company demonstrates a strong commitment to waste recycling and reduction by implementing strategies to eliminate single-use plastics. Actions include replacing plastic cups with paper alternatives and introducing glass bottles in meeting rooms and office spaces. The organisation's primary waste streams consist of e- waste, including items such as computers, printers, switches, and scanners.

E-waste collection bins are strategically placed to encourage responsible disposal by both employees and visitors. Certified Recycler, registered with the Pollution Control Board, are engaged to handle, recycle, and dispose of e-waste in compliance with regulatory standards, ensuring minimal environmental impact. As a service-oriented company, OnMobile does not produce physical goods or utilise hazardous chemicals, further reducing its ecological footprint. Additionally, wet and dry waste segregation is prioritised, with the segregated waste handed over to municipal authorities for recycling.

- 11. If the entity has operation in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format**

Not Applicable

- 12. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:**

Not Applicable.

- 13. Is the entity compliant with the applicable environmental law/ regulations/ guidelines in India; such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules thereunder (Y/N). If not, provide details of all such non-compliances, in the following format:**

Yes, the Company is compliant with the applicable environmental law/ regulations/ guidelines in India.

The company abides by all the sector specific laws, regulations and guidelines to comply with environmental protection.

- ii) **Nature of operations**
- iii) **Water withdrawal, consumption and discharge in the following format**

Parameter	FY 2024-25 (Current Financial Year)	FY 2023-24 (Previous financial year)
Water withdrawal by source (in kilolitres)	As per the report by the Central Ground Water Board, Bangalore is categorized as 'Over-Exploited'. However the company operates in the service industry and primarily uses water for human consumption, requiring minimal water for its business activities. As the offices are situated in rental properties, the landlord manages water usage and recycling. Recycled water is designated for non-potable functions like toilet and urinal flushing, whereas fresh water is reserved for drinking and other potable needs. Although there is no system currently in place to monitor water consumption, the organization has implemented measures to promote responsible water use. These measures include the installation of aerator taps and sensor-based taps to reduce water wastage.

Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. - No		

2. **Provide details of scope 3 emissions & its intensity, in the following format:**

The Company is not presently tracking Scope 3 emissions.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. - No

3. With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

Not Applicable

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency or reduce impacts due to emissions/ effluent discharge / waste generated, please provide details or outcomes of such initiatives, in the following format:

S I. No	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1	Waste Segregation and Recycling	Implemented wet and dry waste segregation within office premises. Ensured waste disposal aligned with municipal guidelines. Partnered with certified recyclers for responsible e-waste management.	Improved waste recycling efficiency, reduced landfill contributions, and promoted a culture of responsible waste management.
2	Energy Efficiency Measures	Installed energy-efficient LED lighting, optimised HVAC systems for reduced energy consumption, and implemented water-saving plumbing fixtures.	Achieved significant reductions in energy consumption and operational costs while enhancing environmental sustainability.
3	Technology-Driven Resource Efficiency	Leveraged advanced digital tools and infrastructure to optimise resource utilisation in service delivery, reducing dependency on physical resources.	Enhanced operational efficiency with a minimal environmental footprint, aligning with sustainability objectives.
4	Sustainable Practices Promotion	Engaged employees through awareness campaigns on energy conservation and sustainable office practices.	Fostered a sustainability-focused work culture, resulting in proactive participation in green initiatives.

5. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

The Company emphasizes the significance of a Business Continuity Plan framework within its risk management strategy. This framework is crucial for ensuring the resilience and uninterrupted operation of its key products and services, maintaining a business-as-usual stance in the market, and safeguarding its workforce. The plan is designed to prevent any disruptions from external influences or failures within the company's infrastructure or systems, enabling the company to uphold 100% operational efficiency through strategies like built-in redundancies, a remote work setup, and a geographically diverse workforce.

To support this, the Company regularly conducts business impact analyses and risk assessments to identify the potential effects of various adverse events, including natural disasters, pandemics, cyber-attacks, and administrative measures like lockdowns.

Overall, the Company is dedicated to upholding a robust Business Continuity Plan framework as a key component of its extensive risk management policy. By preparing for and responding to potential disruptions, the Company ensures continuous delivery of value to its customers and stakeholders, while protecting its employees' well-being.

6. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.

5. Does the entity have a framework/ policy on cyber security and risks related to data privacy? (Yes/No) If available, provide a web-link of the policy.

OnMobile is dedicated to ensuring the security of data, preventing unauthorized or unlawful use of personally identifiable information, and maintaining strong data protection standards. To support this commitment, the company has established and implemented appropriate physical, organizational, and technical safeguards and practices. In alignment with regulatory requirements and internal business needs, OnMobile continues to enhance its data protection framework with additional controls and technical measures as necessary.

The Data Protection Policy serves as a comprehensive guide to how OnMobile collects, processes, uses, and protects personal data. It outlines the principles and procedures in place to safeguard individual privacy and reinforces the company's commitment to responsible data handling.

The Policy can be accessed via the following web links:

- [Privacy Policy](#)
- [Data Protection Policy](#)

The company is committed to safeguarding all information assets by implementing robust management processes across the organization. Business information is protected through a combination of effective controls and proactive measures. These include the deployment of advanced security solutions such as firewalls, intrusion prevention systems, anti-malware tools, and dynamic URL filtering.

6. Provide details of any corrective actions taken or underway on issues relating to advertising, and delivery of essential services; cyber security and data privacy of customers; re-occurrence of instances of product recalls; penalty / action taken by regulatory authorities on the safety of products / services.

No issues reported

7. Provide the following information relating to data breaches:

- a. Number of instances of data breaches – No issues Reported
- b. Percentage of data breaches involving personally identifiable information of customers – Not Applicable
- c. Impact, if any, of the data breaches- NIL

LEADERSHIP INDICATORS

1. Channels / platforms where information on products and services of the entity can be accessed (provide web link, if available).

Following are the links for information on products and services of the entity:

<https://www.onmobile.com/products/challengesarena>

<https://www.onmobile.com/products/videos>

<https://www.onmobile.com/products/tones>

2. Steps taken to inform and educate consumers about safe and responsible usage of products and/or services.

Operating within the mobile entertainment and digital industry, the company acknowledges the importance of providing comprehensive information and education to its customers regarding its products and services. As part of this commitment, detailed information about the company's offerings, including terms and conditions, refund policy, and frequently asked questions (FAQs), is readily available on its website.

It's noteworthy that for the company's white-labelled business-to-business (B2B) products, customer interactions typically fall under the purview of telecom operators. Consequently, the company relies on these operators to furnish information and education to end consumers on its behalf. This arrangement serves as a crucial component of the company's communication and education efforts directed towards its customers.

Overall, the company remains dedicated to equipping its customers with the necessary information and education to fully grasp and derive benefits from its products and services. Whether through its website or through collaborative efforts with telecom operators, the company endeavors to ensure that customers are well-informed and content with their engagements with ONMO. Notably, these web pages serve to inform consumers about ONMO's policies:

- Privacy Policy: [Link](#)
- Terms & Conditions: [Link](#)
- Refund Policy: [Link](#)
- FAQs: [Link](#)

3. Mechanisms in place to inform consumers of any risk of disruption/discontinuation of essential services.

The Company's critical services were not disrupted during the year, and planned maintenance work is communicated to telecom operators seven days in advance. Any unplanned disruptions are communicated to relevant stakeholders via phone, email, SMS, and other channels within an agreed timeframe. Telecom operators decide how to inform end consumers based on the severity, duration, and criticality of the disruption. Overall, the Company is committed to maintaining its services and communicating effectively with stakeholders.

4. Does the entity display product information on the product over and above what is mandated as per local laws? (Yes/No/Not Applicable)? If yes, provide details in brief.

As a mobile entertainment service provider, OnMobile's products include web applications, games, and tones, which are delivered through its telecom operator partners. Since OnMobile operates as a business-to-business (B2B) entity, interactions with end-users, including the display of product information, are managed by the telecom operators. Consequently, compliance with information display requirements is ensured through telecom partners, aligning with local legal mandates.

5. Did your entity carry out any survey with regard to consumer satisfaction relating to the major products / services of the entity, significant locations of operation of the entity or the entity as a whole? (Yes/No)

No. OnMobile does not conduct direct consumer surveys, as customer interactions and satisfaction assessments are facilitated by its telecom operator partners, who directly manage end-user engagements. This arrangement allows telecom operators to gauge consumer feedback while OnMobile focuses on delivering high-quality products and services to its partners.

Independent Auditor's Report

To the Members of Onmobile Global Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of Onmobile Global Limited (the "Company") which comprise the standalone balance sheet as at 31 March 2025, and the standalone statement of profit and loss (including other comprehensive income), standalone statement of changes in equity and standalone statement of cash flows for the year then ended, and notes to the standalone financial statements, including material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2025, and its profit and other comprehensive loss, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Impairment of Investments (including other receivables) in subsidiaries	
See Note 4,6,7,8,9 and 10 to standalone financial statements	
The key audit matter	How the matter was addressed in our audit
<p>The Company has significant investment in subsidiaries (amounting to Rs. 3,006.20 million, net of impairment of Rs. 725.20 million) and other receivable from subsidiaries, net (amounting to Rs. 1,914.62 million, net of impairment of Rs. 273.87) which accounts for 23.10% of total assets of the Company as at 31 March 2025.</p> <p>The changes in business environment caused by external factors may affect the anticipated performance of subsidiaries and recoverability of investment in subsidiaries and certain other receivables.</p> <p>The annual impairment testing was significant because of the financial quantum of the assets as well as the critical judgements, estimates and assumptions involved with respect to the assessment of net worth or net asset position of the subsidiaries.</p>	<p>In view of the significance of the matter, following audit procedures were applied, amongst others to obtain sufficient audit evidence:</p> <p>Assessed the design, implementation and operating effectiveness of key controls in respect of the Company's analysis of the rationale for recoverability of the net exposure towards each of the these subsidiaries;</p> <p>We have tested the arithmetical accuracy of the impairment model as considered for the purpose of impairment assessment;</p> <p>We performed an assessment of net profit and net worth of the subsidiaries to identify whether an indicator for impairment existed and evaluated whether the net assets of the subsidiary were sufficient to recover the investment value;</p> <p>Evaluated the adequacy and appropriateness of the disclosures made in the standalone financial statements.</p>

Taxation	
See Note 28, 29A and 29C to standalone financial statements	
The key audit matter	How the matter was addressed in our audit
<p>The Company's operations were majorly based out of units registered as Special Economic Zone (SEZ) in the earlier years.</p> <p>Accordingly, the Company had historically enjoyed certain deductions/benefits with respect to payment of income-tax and other indirect taxes, some of which are subject matters of dispute with tax authorities.</p> <p>Further, the Company has certain on-going disputes with tax authorities with respect to transfer pricing matters.</p> <p>The Company periodically assesses its tax positions, which include examination by the external tax consultant and tax counsels appointed by the Company. Judgment is required in assessing the range of possible outcomes for some of these tax matters.</p> <p>The possible outcomes, could change significantly over time as each of the matter progresses depending on experience on actual assessment proceedings by tax authorities and other judicial precedents.</p> <p>Where the amount of tax liabilities is uncertain, the Company recognises accruals/contingent liability which reflect the Company's most likely outcome or expected value of the outcome based on the facts as at the reporting date. Thus, there is a risk of incorrect accounting of accruals and disclosure of contingent liability for tax.</p> <p>Accordingly, the assessment of potential tax liabilities and uncertain tax positions involves significant judgement and accordingly was an area of focus.</p>	<p>In view of the significance of the matter, following audit procedures were applied, among others to obtain sufficient audit evidence:</p> <p>Tested the design of internal financial controls and operating effectiveness of the relevant key controls with respect to direct and indirect taxes;</p> <p>We obtained list of ongoing litigations and tax computations for the current year;</p> <p>We analysed select key correspondences with the tax authorities to identify any additional tax litigation or update from old litigations;</p> <p>We analysed Company's judgment regarding the eventual resolution of matters with various tax authorities. In this regard, we understood how Company has considered past experience, where available, with the tax authorities in the respective jurisdictions;</p> <p>We also considered external expert opinion and consultation made by the Company for significant matters during current and past periods, along with independent confirmation received from the experts, as applicable, on the likelihood of the outcome of the said contingencies and potential impact of ongoing litigation;</p> <p>We also evaluated the competence, professional qualification, objectivity and independence of Company's experts involved in the process;</p> <p>We used our own tax specialists' expertise to assess the key assumptions made by the Company.</p> <p>Evaluated the adequacy and appropriateness of the disclosures made in the standalone financial statements in note no. 28, 29A and 29C.</p>

Other Information

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and auditor's report(s) thereon. The annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take necessary actions, as applicable under the relevant laws and regulations.

Management's and Board of Directors' Responsibilities for the Standalone Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit/ loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of standalone financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

- (i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.
- (B) The Company has maintained proper records showing full particulars of intangible assets.
- (i) (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has a regular programme of physical verification of its Property, Plant and Equipment by which all property, plant and equipment are verified in a phased manner over a period of 3 years. In accordance with this programme, certain property, plant and equipment were verified during the year. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. No discrepancies were noticed on such verification.
- (c) The Company does not have any immovable property (other than immovable properties where the Company is the lessee and the leases agreements are duly executed in favour of the lessee). Accordingly, clause 3(i)(c) of the Order is not applicable.
- (d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year.
- (e) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no proceedings initiated or pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.
- (ii) (a) The Company is a service company, primarily rendering telecom value-added services. Accordingly, it does not hold any physical inventories. Accordingly, clause 3(ii)(a) of the Order is not applicable.
- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks or financial institutions on the basis of security of current assets. In our opinion, the quarterly returns or statements filed by the Company with such banks or financial institutions are in agreement with the books of account of the Company.
- (iii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any investments, provided guarantee or security or advances in the nature of loans, secured or unsecured, to companies, firms, limited liability partnership or any other parties during the year. Annexure B to the Independent Auditor's Report on the standalone financial statements of Onmobile Global Limited for the year ended 31 March 2025

Report on the internal financial controls with reference to the aforesaid standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act

(Referred to in paragraph 2(A)(g) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to financial statements of Onmobile Global Limited ("the Company") as of 31 March 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2025, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's and Board of Directors' Responsibilities for Internal Financial Controls

The Company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes

in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

2 Material accounting policies

Basis of presentation of these standalone financial statements

a. Statement of compliance

The standalone financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 and Companies notified under section 133 of the Companies Act, 2013, (the Act), and other relevant provisions of the Act.

The financial statements are approved for issue by the Company's Board of Directors on May 20, 2025.

These standalone financial statements have been prepared for the Company as a going concern on the basis of relevant Ind AS that are effective at the Company's annual reporting date, March 31, 2025.

b. Basis of Measurement

The standalone financial statements have been prepared on the historical cost convention and on an accrual basis, except for the following material items:

- a. Certain financial assets and liabilities (including derivative instruments) measured at fair value;
- b. Share based payment transactions and
- c. Net defined benefit assets/ (liabilities) are measured at fair value of plan assets, less present value of defined benefit obligations.

c. Use of estimates and judgements

The preparation of the standalone financial statements in conformity with Ind AS requires

management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the significant effect on the amounts recognized in the financial statements.

Judgements

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements is included in the following notes:

- i) Note 3- Useful lives of Property, Plant and Equipment and Intangible Assets;
- ii) Note 30- Measurement of defined benefit obligation; key actuarial assumptions;
- iii) Note 31- Share based compensation to employees;
- iv) Note 28 - Provision for income taxes and related tax contingencies and Evaluation of recoverability of deferred tax assets.

Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that might have a significant risk of resulting in a material adjustment in the year ending March 31, 2025 is included in the following notes:

- i) Note 28- recognition of deferred tax assets: availability of future taxable profit against which tax losses carried forward can be used;
- ii) Note 40- impairment test of non-financial assets: key assumptions underlying recoverable amounts;
- iii) Note 40- impairment of financial assets; and
- iv) Note 29- recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources.

Notes to standalone financial statements

(Rupees in millions, except share and per share data, unless otherwise stated)

d. Functional and presentation currency

The standalone financial statements are presented in Indian Rupee (INR), the national currency of India, which is the functional currency of the Company. The Company has foreign operations (branches) for which the functional currency is the currency of the primary economic environment in which these entities operates.

e. Foreign currency transactions and balances

Transactions in foreign currency are translated into the respective functional currencies using the exchange rates prevailing at the dates of the respective transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at the exchange rates prevailing at the reporting date of monetary assets and liabilities denominated in foreign currencies are recognised in the Statement of Profit and loss and reported within foreign exchange gains/ (losses).

Non monetary assets and liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.

The financial position of the foreign operations whose functional currency is different from the presentation currency (INR) are recognised in Other Comprehensive Income as Foreign Currency Translation reserve as follows:

- a. Assets and liabilities are translated into Indian Rupee (INR) using exchange rate prevailing at the end of each reporting period.
- b. Income and expenses are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the dates of the transactions are used.

f. Investment in subsidiaries and associates

Investment in subsidiaries are measured at cost less impairment loss, if any and associates are measured at cost. Dividend income from subsidiaries is recognised when its right to receive the dividend is established.

g. Cash flow

Cash flow Statement has been prepared in accordance with the Indirect method prescribed in Indian Accounting Standard 7-Statement of cash flows.

h. Cash and cash equivalents

Cash comprises cash on hand and in banks, demand deposits with banks which can be withdrawn at any time without prior notice or penalty on the principal. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

i. Financial instruments

Recognition and initial measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at

- amortised cost;
- FVOCI – debt investment;
- FVOCI – equity investment; or
- FVTPL

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Notes to standalone financial statements

(Rupees in millions, except share and per share data, unless otherwise stated)

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVOCI – equity investment). This election is made on an investment- by- investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Subsequent measurement and gains and losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in statement of profit and loss.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in statement of profit and loss. Any gain or loss on derecognition is recognised in statement of profit and loss.

Debt investments at FVOCI	These assets are subsequently measured at fair value. Interest income under the effective interest method, foreign exchange gains and losses and impairment are recognised in statement of profit and loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to statement of profit and loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognised as income in statement of profit and loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to statement of profit and loss.

Financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held- for- trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in statement of profit and loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in statement of profit and loss. Any gain or loss on derecognition is also recognised in statement of profit and loss.

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

Notes to standalone financial statements

(Rupees in millions, except share and per share data, unless otherwise stated)

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in statement of profit and loss.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

Derivative financial instruments

The Company holds derivative financial instruments such as foreign exchange forward contracts to mitigate the risk of changes in foreign exchange rates on foreign currency assets and liabilities and forecasted cash flows denominated in foreign currencies. The counterparty to these contracts is generally a bank.

Derivatives are recognised and measured at fair value. Attributable transactions costs are recognised in statement of profit and loss.

j. Property, plant and equipment and intangible assets

Property, plant and equipment and intangible assets are stated at cost of acquisition including taxes, duties, freight directly attributable to make the asset ready for its intended use and other incidental expenses relating to acquisition and installation less accumulated depreciation and accumulated

impairment losses, if any.

The cost of an item of property, plant and equipment shall be recognized as an asset if, and only if it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably

Items of property, plant and equipment (including capital-work-in progress) are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and any accumulated impairment losses. Freehold land is carried at historical cost less any accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in statement of profit and loss.

Subsequent expenditure on assets after its purchase is capitalised only if it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably. Assets retired from active use and held for sale are stated at the lower of their net book value and realisable value and disclosed separately.

Capital work in progress is stated at cost and includes the cost of the assets that are not ready for their intended use at the Balance Sheet date.

k. Depreciation and amortisation

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value.

Depreciation has been provided on the straight-line method over the useful life as estimated by the management based on technical advice on commercial lives of these assets, which is different from the rates prescribed under Schedule II of the Companies Act, 2013.

Depreciation on additions/(disposals) is provided on a pro-rata basis i.e. from/ (upto) the date on which asset is ready for use/ (disposed off)

Notes to standalone financial statements

(Rupees in millions, except share and per share data, unless otherwise stated)

The estimated useful lives are as follows:

Category of Asset	Management's estimate of useful life	As per Schedule II
Leasehold improvements	Primary lease period of 3 years -5 years	Primary lease period of 3 years -5 years
Office equipments	3 years	5 years
Computers and electronic equipments	3 years-6 years	3 years-6 years
Furniture and fixtures	3 years	10 years
Softwares	3 years	3 years
Intellectual property rights	3 years	NA
Market development and deployment rights	Over the term of the agreement	NA

The estimated useful life of the assets are reviewed at the end of each financial year and the amortisation period is revised to reflect the changed pattern, if any.

Individual assets costing less than Rs. 5,000 are depreciated in full in the year of purchase.

I. Leases

Company as a lessee

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- the contract involves the use of an identified asset;
- the Company has the right to obtain substantially all the economic benefits from use of the asset throughout the period of use; and
- the Company has the right to direct the use of the asset.

At inception or on reassessment of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of the relative stand-alone prices of the lease components and the aggregate stand-alone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability, adjusted for any lease payments made at or before the commencement date, less any lease incentives received, plus any initial direct costs incurred and an estimate of the costs to

be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located.

The Company determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased.

The right-of-use asset is subsequently measured at cost less accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the standalone statement of profit and loss.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the incremental borrowing rate applicable to the entity within the Company. Generally, the Company uses its incremental borrowing rate as the discount rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to

Notes to standalone financial statements

(Rupees in millions, except share and per share data, unless otherwise stated)

exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The Company recognises the amount of the re-measurement of lease liability as an adjustment to the right-of-use asset. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in standalone statement of profit and loss.

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases of all assets that have a lease term of 12 months or less and leases of low-value assets. The Company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

m. Revenue from contracts with customers

The Company recognises revenue to depict the provision of services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those services. A 5-step approach is used to recognise revenue as below:

Step 1: Identify the contract(s) with a customer

Step 2: Identify the performance obligation in contract

Step 3: Determine the transaction price

Step 4: Allocate the transaction price to the performance obligations in the contract

Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

Revenue from Telecom Value Added Services, net of credit notes, is recognized when a promise in a customer contract (performance obligation) has been satisfied by transferring control as per the terms of revenue sharing arrangements. Control over a promised services refers to the ability to direct the use of, and obtain substantially all of the remaining benefits from, those services. Control is usually

transferred when services are received and used. The amount of revenue to be recognized (transaction price) is based on the consideration expected to be received in exchange for services, net of taxes directly linked to sales. If a contract contains more than one performance obligation, the transaction price is allocated to each performance obligation based on their relative stand-alone selling prices.

Revenue from sale of user licences for software application is recognized at point in time when the applications are functionally installed at the customer's location and customer obtains the control of asset as per the terms of the contracts.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

The Company recognises a deferred income (contract liability) if consideration has been received (or has become receivable) before the Company transfers the promised goods or services to the customer. Deferred income mainly relates to remaining performance obligations in (partially) unsatisfied long-term contracts or are related to amounts the Company expects to receive for goods and services that have not yet been transferred to customers under existing, non-cancellable or otherwise enforceable contracts.

Dividend income and profit on sale of investments

Dividend from subsidiaries is recognised when the Company's right to receive the payment is established.

Dividend on current investments is recognized on an accrual basis when the right to receive payment is established. Profit on sale of investments is recorded on transfer of title from the Company and is determined as the difference between the sale price and the carrying value of the investment.

Interest income

Interest income is recognised as it accrues in the statement of profit and loss, using the effective interest method.

n. Employee benefits

Employee benefits include provident fund, Employee State Insurance ('ESI'), gratuity fund, compensated absences etc.

Notes to standalone financial statements

(Rupees in millions, except share and per share data, unless otherwise stated)

- a) Short term Obligations: Short-term employee benefits include salaries, social security contributions, short term compensated absences (such as paid annual leave where the absences are expected to occur within twelve months after the end of the period in which the employees render the related employee service), profit sharing and bonuses payable within twelve months after the end of the period in which the employees render the related services and non monetary benefits (such as medical care) etc, for current employees are estimated and measured on an undiscounted basis.

b) Defined contribution plan

The Company's contribution to provident fund, employee state insurance scheme, social security etc are considered as defined contribution plans and are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees.

c) Defined benefit plan

Post employment benefit plans other than defined contribution plans include liabilities for gratuity funded in terms of a scheme administered by the Life Insurance Corporation of India, is determined by using projected unit credit method with actuarial valuation made at the end of each financial year. Provision for liabilities pending remittance to the fund is carried in the balance sheet.

Actuarial gains and losses are recognised in other comprehensive income. Further, the profit or loss does not include an expected return on plan assets. Instead net interest recognised in profit and loss is calculated by applying a discount rate used to measure the defined benefit obligation to the net defined benefit liability or asset. The actual return on the plan assets above or below the discount rate is recognised as part of re-measurement of net defined liability or asset through other comprehensive income.

Remeasurement comprising actuarial gains and losses and return on plan assets (excluding amounts included in net interest on the net defined benefit liability) are not reclassified to profit or loss in subsequent periods.

- d) Long-term liability for compensated absences is provided based on actuarial valuation of the accumulated leave credit outstanding to the

employees as on the Balance Sheet date. The Company recognizes actuarial gains and losses immediately in the statement of profit and loss.

o. Share based payments

Employees of the Company receive remuneration in the form of equity settled instruments, for rendering services over a defined vesting period. Equity instruments granted are measured by reference to the fair value of the instrument at the date of grant.

The expense is recognised in the Statement of Profit and loss with a corresponding increase to the share based payment reserve, a component of equity.

The equity instruments generally vest in a graded manner over the vesting period. The fair value determined at the grant date is expensed over the vesting period of the respective tranches of such grants (accelerated amortisation).

The grant date fair value of equity-settled share-based payment arrangements granted to employees is generally recognized as an employee benefits expense, with a corresponding increase in equity, over the vesting period of the awards. The amount recognized as an expense is adjusted to reflect the number of awards for which the related service and non-market performance conditions are expected to be met, such that the amount ultimately recognized is based on the number of awards that meet the related service and non-market performance conditions at the vesting date. For share-based payment awards with non-vesting conditions, the grant date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

When the terms of an equity-settled award are modified, the minimum expense recognized by the company is the grant date fair value of the unmodified award, provided the vesting conditions (other than a market condition) specified on grant date of the award are met.

Further, additional expense, if any, is measured and recognized as at the date of modification, in case such modification increases the total fair value of the share-based payment plan, or is otherwise beneficial to the employee.

p. Earnings per share

Basic earnings per share is calculated by dividing the profit (or loss) attributable to the owners of the company by the weighted average number of equity

Notes to standalone financial statements

(Rupees in millions, except share and per share data, unless otherwise stated)

shares outstanding during the year.

Diluted earnings per share is computed by dividing the profit (considered in determination of basic earnings per share) after considering the effect of interest and other financing costs or income (net of attributable taxes) associated with dilutive potential equity shares by the weighted average number of equity shares considered for deriving basic earnings per share adjusted for the weighted average number of equity shares that would have been issued upon conversion of all dilutive potential equity shares.

q. Income taxes

The tax expenses for the period comprises of current tax and deferred income tax. Tax is recognised in Statement of Profit and Loss, except to the extent that it relates to items recognised in the Other Comprehensive Income. In which case, the tax is also recognised in Other Comprehensive Income.

- a) Current Tax:** Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

Current tax assets and liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously

- b) Deferred Tax:** Deferred tax assets and liabilities are recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. Accordingly, MAT is recognised as deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the future

economic benefit associated with the asset will be realised.

Deferred tax assets are recognized for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences.

Deferred tax is not recognized for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of transaction;
- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be utilised.

The Company offsets deferred income tax assets and liabilities, where it has a legally enforceable right to offset current tax assets against current tax liabilities, and they relate to taxes levied by the same taxation authority on either the same taxable entity, or on different taxable entities where there is an intention to settle the current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

r. Impairment

(i) Financial assets

The Company recognises loss allowances for ECLs on financial assets measured at amortised cost.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. The application of simplified approach does not require the company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort.

The Company considers a financial asset to be in default when:

- the debtor is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held); or
- the financial asset is more than 365 days past due.

Measurement of ECLs

ECLs with respect to trade receivables, the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision

matrix. The provision matrix takes into account historical credit loss experience as well as the current economic conditions and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and allowance rates used in the provision matrix.

Credit-impaired financial assets

At each reporting date, the Company assesses whether financial assets carried at amortised cost at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the debtor;
- a breach of contract such as a default or being more than 365 days past due;
- the restructuring of a loan or advance by the Company's on terms that the Company would not consider otherwise;
- it is probable that the debtor will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

Presentation of allowance for ECL in the balance sheet

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

(ii) Non-financial assets

Intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Intangible assets under development are tested annually for impairment. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amounts by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount

Notes to standalone financial statements

(Rupees in millions, except share and per share data, unless otherwise stated)

is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash flows from other assets or group of assets (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

s. Current/ Non-current classification

The company classifies an asset as current asset when:

- it expects to realize the asset, or intends to sell or consume it, in its normal operating cycle;
- it holds the asset primarily for the purpose of trading;
- it expects to realize the asset within twelve months after the reporting period; or
- the asset is cash or a cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when :

- it expects to realize the asset, or intends to sell or consume it, in its normal operating cycle;
- it holds the liability primarily for the purpose of trading;
- the liability is due to be settled within twelve months after the reporting period; or
- it does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents. The company's normal operating cycle is twelve months

t. Provisions, contingent liabilities and commitment

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset, if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably. The Company uses significant judgements to assess contingent liabilities. Contingent liabilities are recognised when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the standalone financial statements"

u. Cash dividend to equity holders

The Company recognises a liability to make cash to equity holders when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity. Interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

v. Recent Indian Accounting Standards (Ind AS)

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. There are no new standards or amendments to the existing standards that are notified impacting the Standalone financial statements of the company.

In earlier years, the Company had entered into agreement with VIVO SA, Brazil on March 01, 2010 for rendering Ring Back Tone (RBT) services and made a one-time upfront payment of BRL 12.70 million (equivalent Rs 325.70 million) for a period of 5 years. The Company deducted TDS @ 20% and deposited the same with the income tax department. However, the Company was of the view that the above amount was not subject to TDS and filed an application with Authority for Advance Ruling ('AAR') seeking clarification in respect of the same. The Company had negotiated with VIVO SA, Brazil that Vivo will bear 10% of the TDS deducted and made the payment of BRL 11.43 million to Vivo Brazil. After filling the

Notes to standalone financial statements

(Rupees in millions, except share and per share data, unless otherwise stated)

application with AAR, the Company had created a receivable of Rs 73.28 million in the books pertaining to 20% TDS amount deposited with the income tax department (after grossing up for the 10% TDS borne by the Company) and also created a deferred liability amounting to Rs. 18.83 millions as at March 31, 2025 (March 31, 2024 - Rs 21.10 millions) pertaining to 10% TDS amount payable to Vivo Brazil if the application is decided in favor of the Company. The net amount of exposure involved (net of forex gain) as at March 31, 2025 is Rs. 54.45 millions (March 31, 2024 - Rs 52.17 millions).

During the year ended March 31, 2020, application filed by the Company was disposed off by the Authority for Advance Ruling ('AAR') thereby rejecting Company's refund claim of TDS deposited earlier and hold that the amount of market access fees paid to VIVO SA, Brazil is in the nature of royalty and is liable for tax in India. During the previous year ended March 31, 2021, the Company has filed a writ application with the Honorable High Court of Karnataka in the month of June 2020. The said application is admitted by the Honorable High Court and the matter is yet to be taken up for regular hearings. The Company based on the legal evaluation believes that it will be able to sustain on appeals and accordingly no provisions are required to be recorded at this stage.

29 A. Contingent liabilities

The Company is involved in taxation and other disputes, lawsuits, proceedings etc. that arise from time to time in the ordinary course of business. Management is of the view that these claims are not tenable and will not have any material adverse effect on the Company's financial position and result of operations.

- a Claims against the company not acknowledged as debt amounts to Rs. 2,282.85 million (March 31, 2024: Rs. 1,902.49 million).

Particulars	As on March 31, 2025	As on March 31, 2024	Remarks
Direct tax matters	1,074.16	675.06	The claims against the Company primarily represent demands arising on completion of assessment proceedings under the Income-tax Act, 1961. These claims are due to disallowances such as transfer pricing adjustments, disallowance of SEZ exemption benefit etc. These matters are pending before various Appellate Authorities and the management expects its position will likely be upheld on ultimate resolution and will not have any material adverse effect on the Company's financial position and results of operations
Indirect tax matter	1,208.69	1,227.43	The contingent liabilities in respect of Indirect taxes are mainly because of issues like denial of zero tax rate on export revenue, mismatch of input tax credit between amount claimed and amount available as per GST Portal etc. These matters are pending before various Appellate Authorities and the management expects its position will likely be upheld on ultimate resolution and will not have any material adverse effect on the Company's financial position and results of operations

29 C. Other matters

During the year ended March 31, 2020, the Company had received a summon with respect to survey under section 133A of the Income Tax Act, 1961. The scope of the survey communicated to the Company was verifying the deduction under section 10AA claimed by the Company in relation to the income from its SEZ unit. During the FY 2020-21 and FY 2021-22 the Company received notices under Section 148 of the Act towards reopening of the assessment for the period from FY 2012-13 to FY 2015-16 and proposing to disallow the SEZ deduction under section 10AA granted earlier. The Company has challenged the said order and filed writ petitions (for all FY's) before the Honourable High Court of Karnataka on April 03, 2021 (for FY2012-13 to FY2014-15) and September 06, 2022 (for FY2015-16). The Honourable High Court has granted stay on the proceedings. The Company believes that there should be no adverse outcome against the Company on account of this matter.

Fair value heirarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are recognised at fair value and amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments under the accounting standard as follows:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities,

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices), and

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

There have been no transfers among Level 1, Level 2 and Level 3 during the period.

The management assessed that fair value of cash and short-term deposits, trade receivables, trade payables, other current financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

- Long-term fixed-rate receivables are evaluated by the Company based on parameters such as interest rates, specific country risk factors, individual creditworthiness of the customer. Based on this evaluation, allowances are taken into account for the expected losses of these receivables.
- The fair value of the unquoted mutual fund are based on market observable inputs at reporting date. The fair value of other financial liabilities is estimated by credit risk and remaining maturities.
- The Company enters into derivative financial instruments with various counterparties, principally financial institutions with investment grade credit ratings. Derivative financials instruments are valued based on quoted prices for similar assets and liabilities in active markets or inputs that are directly or indirectly observable in the marketplace.

Financial risk management

The Company's Corporate Treasury function provides services to the business, coordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations of the Company through internal risk reports which analyse exposures by degree and magnitude of risk.

The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the company is foreign exchange risk along with credit risk and liquidity risk .

The Company seeks to minimise the effects of these forex by hedging the forex exposures through forward contracts, liquidity risk by diversifying its investments in various schemes of debt mutual funds and fixed deposits. The Company manages its credit risks by monitoring the credit rating of the customers, banks and mutual funds. Corporate Treasury Function reports quarterly to the Company's risk management committee, an independent body that monitors risks and policies implemented to mitigate risk exposures.

Market Risk

Market risk is the risk of any loss in future earnings, in realizable fair values or in future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rate, equity price fluctuations, liquidity and other market changes. Future specific market movements cannot be normally predicted with reasonable accuracy.

(i) Interest rate risk:

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to Company's investments. The Company's investments are primarily short term, which do not expose it to significant interest rate risk.

Notes to standalone financial statements

(Rupees in millions, except share and per share data, unless otherwise stated)

(ii) Foreign currency exchange rate risk:

The fluctuation in foreign currency exchange rates may have potential impact on the income statement and equity, where any transaction references more than one currency or where assets/liabilities are denominated in a currency other than the functional currency of the respective foreign operations. The company enters into forward foreign exchange contracts to hedge its exposure to foreign currency risk arising on the net export of services.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

Sensitivity analysis

A reasonably possible strengthening (weakening) of the US dollar, EUR, against all other currencies at 31 Mar 2025 would have affected the measurement of financial instruments denominated in a foreign currency and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant.

Derivative financial instruments

The Company is exposed to foreign currency fluctuations on foreign currency assets/ liabilities and forecasted cash flows denominated in foreign currency. The Company follows established risk management policies, including the use of derivatives to hedge foreign currency assets/ liabilities and foreign currency forecasted cash flows. The counterparty in these derivative instruments is a bank and the Company considers the risks of non-performance by the counterparty as non-material.

The following table presents the aggregate contracted principal amounts of the Company's derivative contracts outstanding:

Non designated derivative Instrument	As at	As at	Currency	As at	As at
	March 31, 2025	March 31, 2024		March 31, 2025	March 31, 2024
	Nominal Value	Nominal Value		Nominal Value	Nominal Value
	(In Rs. Mn)	(In Rs. Mn)		(Foreign Currency in Mn)	(Foreign Currency in Mn)
Forward Contract -(SELL)	301.89	335.19	USD/INR	3.50	4.00
Total Forward contracts	301.89	335.19		3.50	4.00

The foreign exchange forward contracts mature within 12 months. The table below analyzes the derivative financial instruments into relevant maturity groupings based on the remaining period as at the reporting date:

Particulars	As at	As at
	March 31, 2025	March 31, 2024
	Nominal Value	Nominal Value
Not later than 1 month	42.46	41.68
Later than 1 month but not later 3 months	85.28	83.37
Later than 3 month but not later 1 year	174.16	210.14
	301.90	335.19

In respect of the Company's forward contracts, a 1% decrease/increase in the respective exchange rates of each of the currencies underlying such contracts would have resulted in:

- an approximately 0.12% increase and (0.12%) decrease in the Company's net profit and approximately 0.4% increase and (0.4%) decrease in equity as at March 31, 2025;
- an approximately 0.20% increase and (0.20%) decrease in the Company's net profit and approximately 0.05% increase and (0.05%) decrease in equity as at March 31, 2024;"

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investment securities. Credit risk arises from cash held with banks and financial institutions, as well as credit exposure to clients, including outstanding accounts receivable. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial

assets. Credit risk encompasses both the direct risk of default and the risk of deterioration of creditworthiness as well as concentration risks. The Company assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors.

i) Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. The following table gives details in respect of revenues generated from top customer and customers individually accounting for more than 10% of the total revenue of the Company:

Particulars	For the year ended March 31, 2025	For the year ended March 31, 2024
Revenue from top customer	946.85	283.70
Revenue from customers contributing to more than 10% of the Company	1,212.79	503.57

two customer for the year ended March 31, 2025 (2 customers for the year ended March 31, 2024) accounted for more than 10% of the revenue. No other single customer contributed 10% or more of the Company's revenue for both 2024-25 and 2023-24.

Customer credit risk is managed as per the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit rating scorecard and individual credit limits are defined in accordance with this assessment.

As per Ind AS 109, the Company uses the expected credit loss model to assess the impairment loss. In determining the impairment allowance (Loss allowances for doubtful debts), the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience as well as the current economic conditions and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and allowance rates used in the provision matrix.

An impairment analysis is performed at each reporting date on an individual basis for major customers. Outstanding customer receivables are regularly and closely monitored basis the historical trend and the Company provides for any outstanding receivables beyond 365 days which are doubtful.

The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed below. The Company does not hold collateral as security. The Company evaluates the concentration of risk with respect to trade receivables as low on the basis of past default rates of its customers.

31-Mar-25

Age of Receivables	Expected Credit loss	Gross carrying amount	Loss Allowance	Credit Impaired
> 365 days due	100%	71.63	71.63	No

ii) Investments

The Group limits its exposure to credit risk by generally investing in liquid securities and only with counterparties that have rating of AA/AAA. The Group does not expect any losses from non-performance by these counterparties, and does not have any significant concentration of exposures to specific industry sectors.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due. The Company's corporate treasury department is responsible for liquidity management, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management.

The table below provides details regarding the contractual maturities of significant financial liabilities:

Independent Auditor's Report

To the Members of Onmobile Global Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Onmobile Global Limited (hereinafter referred to as the "Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), its associate, which comprise the consolidated balance sheet as at 31 March 2025, and the consolidated statement of profit and loss (including other comprehensive income), consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, its associate as at 31 March 2025, of its consolidated loss and other comprehensive income, consolidated changes in equity and consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group, its associate in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Impairment of Goodwill, Intangibles and Intangibles (gaming platform)	
See 3b and 39A to consolidated financial statements	
The key audit matter	How the matter was addressed in our audit
<p>The Group has goodwill and intangibles of Rs. 808.37 million as at 31 March 2025 arising on business combination in past years. Further, the Group has intangibles (gaming platform) of Rs. 1,975.19 million as at 31 March 2025 arising on account of development of online gaming platform.</p> <p>The carrying values of goodwill, intangibles and intangibles (gaming platform) will be recovered through future cash flows and there is a risk of asset impairment in case these cash flows do not meet the Group's expectations. The Group determines the value in use ('VIU') by means of a discounted cash flow method which contains a number of significant assumptions and estimates including revenue growth, terminal growth rates and discount rate. Changes in these assumptions could affect the assessment of impairment to the carrying value of goodwill, intangibles and intangibles (gaming platform). The Group has involved an independent expert valuer to determine the VIU during the current year.</p>	<p>In view of the significance of the matter, following audit procedures were applied, among others to obtain sufficient audit evidence:</p> <ul style="list-style-type: none">Assessed the design, implementation and operating effectiveness of key controls in respect of the Group's goodwill, intangibles and intangibles (gaming platform) impairment analysis process including evaluation and approval of forecasts, and the valuation model used;Examined the recoverable value computation prepared by the Company with the help of an external expert. We also evaluated the competence, professional qualification, objectivity and independence of Company's specialists involved in the process;Challenged the key assumptions used in cash flow forecasts for calculating the Value in Use ("VIU") amount. This includes growth rates, profitability, discount rates, etc. with reference to our understanding of the business and historical trend.

Impairment of Goodwill, Intangibles and Intangibles (gaming platform)	
See 3b and 39A to consolidated financial statements	
The key audit matter	How the matter was addressed in our audit
<p>The changes in business environment impacting the budgets and forecasts and uncertainties caused by external factors may affect the anticipated performance of the cash generating unit.</p> <p>The Group has performed an assessment of the recoverable amount of the cash generating unit for the current year.</p> <p>Given the significance of the amounts involved and significant estimates involved in the above, we determined this to be an area of focus for our audit.</p>	<ul style="list-style-type: none"> • We have tested the arithmetical accuracy of the impairment model as considered for the purpose of impairment assessment; • Involved our valuation specialists to examine the valuation methodology and key assumptions; • Performed sensitivity analysis considering possible changes in key assumptions used; • Evaluated the adequacy and appropriateness of the disclosures made in the consolidated financial statements.

Taxation	
See Note 29A, 29C and 34 to consolidated financial statements	
The key audit matter	How the matter was addressed in our audit
<p>The Group carries its business through various subsidiaries and branches operating in various geographical locations.</p> <p>The Holding Company's operations were majorly based out of units registered as Special Economic Zone (SEZ) in the earlier years. Accordingly, the Holding Company had historically enjoyed certain deductions/benefits with respect to payment of income-tax and other indirect taxes, some of which are subject matters of dispute with tax authorities.</p> <p>Also, the Company has certain on-going disputes with tax authorities with respect to transfer pricing matters.</p> <p>The Group periodically assesses its tax positions, which include examination by the external tax consultant and tax counsels appointed by the Group. Judgment is required in assessing the range of possible outcomes for some of these tax matters.</p> <p>The possible outcomes, could change significantly over time as each of the matter progresses depending on experience on actual assessment proceedings by tax authorities and other judicial precedents.</p> <p>Where the amount of tax liabilities is uncertain, the Group recognises accruals/contingent liability which reflect the Group's best estimate of the outcome based on the facts as at the reporting date. Thus, there is a risk of incorrect accounting of accruals and disclosure of contingent liability for tax.</p> <p>Accordingly, the assessment of potential tax liabilities and uncertain tax positions involves significant judgement and accordingly was an area of focus.</p>	<p>In view of the significance of the matter, following audit procedures were applied, among others to obtain sufficient audit evidence:</p> <ul style="list-style-type: none"> • Tested the design of internal financial controls and operating effectiveness of the relevant key controls with respect to direct and indirect taxes; • We obtained list of ongoing litigations and tax computations for the current year; • We analysed select key correspondences with the tax authorities to identify any additional tax litigation or update from old litigations; • We analysed the Group's judgment regarding the eventual resolution of matters with various tax authorities. In this regard, we understood how Company has considered past experience, where available, with the tax authorities in the respective jurisdictions; • We also considered external expert opinion and consultations made by the Group Company for significant matters during current and past periods along with independent confirmation received from the experts, as applicable, on the likelihood of the outcome of the said contingencies and potential impact of ongoing litigation; • We also evaluated the competence, professional qualification, objectivity and independence of Company's experts involved in the process. • We used our own tax specialists' expertise to assess the key assumptions made by the Group. • Evaluated the adequacy and appropriateness of the disclosures made in the standalone financial statements in note no. 29A, 29C and 34.

Other Information

The Holding Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and

auditor's report thereon. The annual report is expected to be made available to us after the date of this auditor's report. Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take necessary actions, as applicable under the relevant laws and regulations.

Management's and Board of Directors' Responsibilities for the Consolidated Financial Statements

The Holding Company's Management and Board of Directors are responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated state of affairs, consolidated profit/ loss and other comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group including its associate in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. The respective Management and Board of Directors of the companies included in the Group and the respective Management and Board of Directors of its associate are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each company and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Management and Board of Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies included in the Group and the respective Management and Board of Directors of its associate are responsible for assessing the ability of each company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and the respective Management and Board of Directors of its associate are responsible for overseeing the financial reporting process of each company.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of

this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associate to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Annexure B to the Independent Auditor's Report on the consolidated financial statements of Onmobile Global Limited for the year ended 31 March 2025

Report on the internal financial controls with reference to the aforesaid consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act

(Referred to in paragraph 2(A)(g) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

In conjunction with our audit of the consolidated financial statements of Onmobile Global Limited (hereinafter referred to as "the Holding Company") as of and for the year ended 31 March 2025, we have audited the internal financial controls with reference to financial statements of the Holding Company, as of that date.

In our opinion, the Holding Company, has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2025, based on the internal financial controls with reference to financial statements criteria established by the Holding Company considering the essential components of such internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's and Board of Directors' Responsibilities for Internal Financial Controls

The Holding Company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Holding Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes

in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

1 Company Overview

OnMobile Global Limited ('OnMobile' or 'the Company') together with its subsidiaries and its associate ('the Group') is a public limited company incorporated in India and has its registered office at Tower # 1 94/1 C & 94/2, Veerasandra Village, Attibele Hobli, Anekal Taluk, Electronic City Phase-1, Bengaluru - 560100, India. The Company has its primary listings on the Bombay Stock Exchange and National Stock Exchange in India. The Company is engaged in providing value added services such as Ringback Tones, Digital Content Store and Infotainment. OnMobile is the global leader in Ringback Tones. Digital Content Store is a one-stop mobile destination for discovering digital content like videos, games, music and images. Infotainment offers music, contest, news and sports to consumers over the mobile.

2 Material accounting policies

Basis of Presentation of these consolidated financial statements

a. Statement of Compliance

The consolidated financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 and Companies notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act.

These consolidated financial statements have been prepared for the Group as a going concern on the basis of relevant Ind AS that are effective at the Group's annual reporting date, March 31, 2025. The consolidated financial statements are approved for issue, by the Company's Board of Directors on May 20, 2025.

b. Basis of Measurement

The consolidated financial statements have been prepared on the historical cost convention and on an accrual basis, except for the following material items:

- a. Certain financial assets and liabilities (including derivative instruments) are measured at fair value
- b. Share based payment transactions
- c. Net defined benefit assets/(liabilities) are measured at fair value of plan assets, less present value of defined benefit obligations and

- d. Contingent consideration in Business combination

c. Basis of Consolidation

The consolidated financial statements incorporate the financial statements of the Company, its subsidiaries and the associate.

Control is achieved when the Company has power over the investee, it is exposed or has rights, to variable returns from its involvement with the investee; and has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power. Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and cease when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit and loss from the date the Company gains control until the date when the Company ceases to control the subsidiary. Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Subsidiaries:

Consolidation procedure followed is as under:

Items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries are combined like to like basis. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognized in the consolidated financial statements at the acquisition date.

Notes to consolidated financial statements

(Rupees in millions, except share and per share data, unless otherwise stated)

Non-controlling interests

NCI are measured initially at their proportionate share of the acquiree's identifiable net assets at the date of acquisition

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

Equity-accounted investees

The Group's interests in equity-accounted investees comprise interests in associates and a joint venture

Associates are those entities in which the Group has significant influence, but not control or joint control, over the financial and operating policies. A joint venture is an arrangement in which the Group has joint control, whereby the Group has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Interests in associates and the joint venture are accounted for using the equity method. They are initially recognised at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of the profit or loss and OCI of equity-accounted investees, until the date on which significant influence or joint control ceases.

Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses (except for foreign currency transaction gains or losses) arising from intra-group transactions, are eliminated. Unrealised gains arising from transactions with equity-accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

The following entities (all subsidiaries and the associate unless stated otherwise) are considered in the consolidated financial statements.

d. Use of Estimates and judgements

The preparation of the consolidated financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the consolidated financial statements is included in the following notes:

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the consolidated financial statements is included in the following notes:

- Note (3a)-Useful lives of property, plant and equipment and intangible assets;

- Note (30) - Measurement of defined benefit obligation; key actuarial assumptions;
- Note (31)- Share based compensation to employees;
- Note (34)- Provision for income taxes and related tax contingencies and evaluation of recoverability of deferred tax assets;
- Note (39) - impairment test of goodwill and other non-financial assets.

Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that might have a significant risk of resulting in a material adjustment in the year ending March 31, 2025 is included in the following notes:

- Note (3b) – recognition of deferred tax assets: availability of future taxable profit against which tax losses carried forward can be used;
- Note (39A) - impairment test of goodwill and other non-financial assets: key assumptions underlying recoverable amounts;
- Note (39A) – impairment of financial assets;
- Note (29) – recognition and measurement of provisions and contingencies: key assumptions

about the likelihood and magnitude of an outflow of resources;

- v. Note (m) - acquisition of subsidiary: fair value of the consideration transferred (including contingent consideration) and fair value of the assets acquired and liabilities assumed.

e. Functional and presentation currency

The consolidated financial statements are presented in Indian Rupee (INR), the national currency of India, which is the functional currency of the Company. The Company has foreign operations (branches and subsidiaries) for which the functional currency is the currency of the primary economic environment in which these entities operate.

f. Foreign currency transactions and balances

Transactions in foreign currency are translated into the respective functional currencies using the exchange rates prevailing at the dates of the respective transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at the exchange rates prevailing at the reporting date of monetary assets and liabilities denominated in foreign currencies are recognised in the consolidated statement of profit and loss and reported within foreign exchange gains/ (losses).

Non monetary assets and liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.

For the purposes of presenting the consolidated financial statements, assets and liabilities of Group's foreign operations with functional currency different from the Company are translated into the Company's functional currency i.e. INR using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any are recognised in other comprehensive income and accumulated in equity.

On the disposal of foreign operation, all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to the consolidated

statement of profit and loss.

A monetary item for which settlement to/from a foreign operation is neither planned nor likely to occur in the foreseeable future is considered as a part of the Company's net investment in that foreign operation. On consolidation, exchange differences arising from the translation of any such net investment in foreign operation, are recognised in other comprehensive income and reclassified to consolidated statement of profit or loss, on disposal of the net investment.

g. Cash Flow

Consolidated cash flow statement has been prepared in accordance with the Indirect method prescribed in Indian Accounting Standard 7-Statement of Cash Flows.

h. Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at bank and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

i. Financial instruments

Recognition and initial measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at

- amortised cost;
- FVOCI – debt investment;
- FVOCI – equity investment; or

Notes to standalone financial statements

(Rupees in millions, except share and per share data, unless otherwise stated)

– FVTPL

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVOCI – equity investment). This election is made on an investment- by- investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Subsequent measurement and gains and losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in consolidated statement of profit and loss.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in consolidated statement of profit and loss. Any gain or loss on derecognition is recognised in consolidated statement of profit and loss.
Debt investments at FVOCI	These assets are subsequently measured at fair value. Interest income under the effective interest method, foreign exchange gains and losses and impairment are recognised in consolidated statement of profit and loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to consolidated statement of profit and loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognised as income in consolidated statement of profit and loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to consolidated statement of profit and loss.

Financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held- for- trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in consolidated statement of profit and loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and

Notes to consolidated financial statements

(Rupees in millions, except share and per share data, unless otherwise stated)

losses are recognised in consolidated statement of profit and loss. Any gain or loss on derecognition is also recognised in consolidated statement of profit and loss.

Derecognition

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its consolidated balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in consolidated statement of profit and loss.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the consolidated balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

Derivative Financial instruments

The Group holds derivative financial instruments such as foreign exchange forward contracts to mitigate the risk of changes in foreign exchange rates on foreign currency assets and liabilities and forecasted cash flows denominated in foreign currencies. The

counterparty to these contracts is generally a bank.

Derivatives are recognised and measured at fair value. Attributable transaction costs are recognised in consolidated statement of profit and loss.

j. Property, plant and equipment and intangible assets

Property, plant and equipment and intangible assets are stated at cost of acquisition including taxes, duties, freight directly attributable to make the asset ready for its intended use and other incidental expenses relating to acquisition and installation less accumulated depreciation and accumulated impairment losses, if any.

The cost of an item of property, plant and equipment shall be recognized as an asset if, and only if it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably

Items of property, plant and equipment (including capital-work-in progress) are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and any accumulated impairment losses. Freehold land is carried at historical cost less any accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in statement of profit and loss.

Subsequent expenditure on assets after its purchase is capitalised only if it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably. Assets retired from active use and held for sale are stated at the lower of their net book value and realisable value and disclosed separately.

Capital work in progress and intangibles under development are stated at cost and includes the cost of the assets that are not ready for their intended use at the Balance Sheet date.

k. Depreciation and Amortisation

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. The estimated useful life of the assets are reviewed at the end of each financial

Notes to standalone financial statements

(Rupees in millions, except share and per share data, unless otherwise stated)

year and adjusted if appropriate.

Depreciation has been provided on the straight-line method over the useful life as estimated by the management based on technical advice on commercial lives of these assets, which is different from the rates prescribed under Schedule II of the Companies Act, 2013.

Depreciation on additions/(disposals) is provided on a pro-rata basis i.e. from/ (upto) the date on which asset is ready for use/ (disposed off)

The estimated useful lives are as follows:

Category of Asset	Management's estimate of useful life	As per Schedule II
Leasehold improvements	Primary lease period of 3 years -5 years	Primary lease period of 3 years -5 years
Office equipment	3 years	5 years
Computers and electronic equipment	3 years-6 years	3 years-6 years
Furniture and fixtures	3 years	10 years

Goodwill

For measurement of goodwill that arises on a business combination refer note 39. Subsequent measurement is at cost less any accumulated impairment losses.

I. Other intangible assets

Internally generated: Research and development

Expenditure on research activities is recognised in statement of profit or loss as incurred.

Development expenditure is capitalised as part of the cost of the resulting intangible asset only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Group intends to and has sufficient resources to complete development and to use or sell the asset. Otherwise, it is recognised in statement of profit or loss as incurred. Subsequent to initial recognition, the asset is measured at cost less accumulated amortisation and any accumulated impairment losses.

Others

Other intangible assets are initially measured at cost.

Subsequently, such intangible assets are measured at cost less accumulated amortization and any accumulated impairment losses.

Other intangible assets are amortised on a straight line basis over the estimated useful life as follows:

Category of Asset	Management's estimate of useful life
Software	3 years -10 years
Customer relationships	6 years
Intellectual property rights	3 years
Market development and deployment rights	Over the term of the agreement
Intangible Assets	10 years

Individual assets costing less than Rs.5,000 are depreciated in full in the year of purchase.

m. Leases

Company as a lessee

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- the contract involves the use of an identified asset;
- the Company has the right to obtain substantially all the economic benefits from use of the asset throughout the period of use; and
- the Company has the right to direct the use of the asset.

At inception or on reassessment of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of the relative stand-alone prices of the lease components and the aggregate stand-alone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability, adjusted for any lease payments made at or before the commencement date, less any lease incentives received, plus any initial direct costs incurred and an estimate of the costs to

Notes to consolidated financial statements

(Rupees in millions, except share and per share data, unless otherwise stated)

be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located.

The Company determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased.

The right-of-use asset is subsequently measured at cost less accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the standalone statement of profit and loss.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the incremental borrowing rate applicable to the entity within the Company. Generally, the Company uses its incremental borrowing rate as the discount rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The Company recognises the amount of the re-measurement of lease liability as an adjustment to

the right-of-use asset. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in consolidated statement of profit and loss.

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases of all assets that have a lease term of 12 months or less and leases of low-value assets. The Company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

n. Business Combination

In accordance with Ind AS 103, Business combinations, the Company accounts for business combinations after acquisition date using the acquisition method when control is transferred to the Company. The cost of an acquisition is measured at the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange. The cost of acquisition also includes the fair value of any contingent consideration and deferred consideration, if any. Any goodwill that arises is tested annually for impairment. Any gain on a bargain purchase is recognised in OCI and accumulated in equity as capital reserve if there exists clear evidence of the underlying reasons for classifying the business combination as resulting in a bargain purchase; otherwise the gain is recognised directly in equity as capital reserve. Transaction costs are expensed as incurred.

Business combinations between entities under common control is accounted for at carrying value.

Any contingent consideration is measured at fair value at the date of acquisition. Contingent consideration is remeasured at fair value at each reporting date and changes in the fair value of the contingent consideration are recognised in profit or loss.

o. Revenue from contracts with customers

The Group recognises revenue to depict the provision of services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those services. A 5-step approach is used to recognise revenue as below:

Step 1: Identify the contract(s) with a customer

Step 2: Identify the performance obligation in contract

Step 3: Determine the transaction price

Notes to standalone financial statements

(Rupees in millions, except share and per share data, unless otherwise stated)

Step 4: Allocate the transaction price to the performance obligations in the contract

Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

Revenue from Telecom Value Added Services, net of credit notes, is recognized when a promise in a customer contract (performance obligation) has been satisfied by transferring control as per the terms of revenue sharing arrangements. Control over a promised services refers to the ability to direct the use of, and obtain substantially all of the remaining benefits from, those services. Control is usually transferred when services are received and used. The amount of revenue to be recognized (transaction price) is based on the consideration expected to be received in exchange for services, net of taxes directly linked to sales. If a contract contains more than one performance obligation, the transaction price is allocated to each performance obligation based on their relative stand-alone selling prices.

Revenue from sale of user licences for software application is recognized at point in time when the applications are functionally installed at the customer's location and customer obtains the control of asset as per the terms of the contracts.

Revenue from fixed price maintenance and subscription services contracts where the Group is standing ready to provide services is recognized based on time elapsed mode and revenue is straight-lined over the period of performance.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

The Group recognises a deferred income (contract liability) if consideration has been received (or has become receivable) before the Group transfers the promised goods or services to the customer. Advances received for services are reported as liabilities until all conditions for revenue recognition are met.

Contract fulfilment costs are generally expensed as incurred except for certain costs which meet the criteria for capitalisation.

Dividend income and profit on sale of investments

Dividend on current investments is recognized on an accrual basis when the right to receive payment is established. Profit on sale of investments is recorded on transfer of title from the Group and is determined as the difference between the sale price and the carrying value of the investment.

Interest Income

Interest income is recognised as it accrues in the statement of profit and loss, using the effective interest method.

p. Employee Benefits

Employee benefits include contribution to provident fund, social security, employee state insurance, gratuity fund, compensated absences etc.

Short term obligations: Short-term employee benefits include salaries, social security contributions, short term compensated absences (such as paid annual leave where the absences are expected to occur within twelve months after the end of the period in which the employees render the related employee service), profit sharing and bonuses payable within twelve months after the end of the period in which the employees render the related services and non monetary benefits (such as medical care), etc. for current employees are estimated and measured on an undiscounted basis.

- a) The Group's contribution to provident fund, employee state insurance scheme, social security, etc. are considered as defined contribution plans and are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees.
- b) Post employment benefit plans other than defined contribution plans include liabilities for gratuity funded in terms of a scheme administered by the Life Insurance Corporation of India, is determined by using projected unit credit method with actuarial valuation made at the end of each financial year. Provision for liabilities pending remittance to the fund is carried in the consolidated balance sheet.
- c) Actuarial gains and losses are recognised in other comprehensive income. Further, the profit or

Notes to consolidated financial statements

(Rupees in millions, except share and per share data, unless otherwise stated)

loss does not include an expected return on plan assets. Instead net interest recognised in profit and loss is calculated by applying a discount rate used to measure the defined benefit obligation to the net defined benefit liability or asset. The actual return on the plan assets above or below the discount rate is recognised as part of re-measurement of net defined liability or asset through other comprehensive income.

Remeasurement comprising actuarial gains and losses and return on plan assets (excluding amounts included in net interest on the net defined benefit liability) are not reclassified to profit or loss in subsequent periods.

- d) Long-term liability for compensated absences is provided based on actuarial valuation of the accumulated leave credit outstanding to the employees as on the balance sheet date. The Group recognizes actuarial gains and losses immediately in the consolidated statement of profit and loss.

q. Share Based Payments

Employees of the Group receive remuneration in the form of equity settled instruments, for rendering services over a defined vesting period. Equity instruments granted are measured by reference to the fair value of the instrument at the date of grant.

The expense is recognised in the consolidated statement of profit and loss with a corresponding increase to the share based payment reserve, a component of equity.

The equity instruments generally vest in a graded manner over the vesting period. The fair value determined at the grant date is expensed over the vesting period of the respective tranches of such grants (accelerated amortisation).

The grant date fair value of equity-settled share-based payment arrangements granted to employees is generally recognized as an employee benefits expense, with a corresponding increase in equity, over the vesting period of the awards. The amount recognized as an expense is adjusted to reflect the number of awards for which the related service and non-market performance conditions are expected to be met, such that the amount ultimately recognized is based on the number of awards that meet the related service and non-market performance conditions at the vesting date. For share-based payment awards with non-vesting conditions, the grant date fair value

of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

When the terms of an equity-settled award are modified, the minimum expense recognized by the Group is the grant date fair value of the unmodified award, provided the vesting conditions (other than a market condition) specified on grant date of the award are met.

Further, additional expense, if any, is measured and recognized as at the date of modification, in case such modification increases the total fair value of the share-based payment plan, or is otherwise beneficial to the employee.

r. Earnings per Share

Basic earnings per share is calculated by dividing the profit (or loss) attributable to the owners of the Group by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed by dividing the profit (considered in determination of basic earnings per share) after considering the effect of interest and other financing costs or income (net of attributable taxes) associated with dilutive potential equity shares by the weighted average number of equity shares considered for deriving basic earnings per share adjusted for the weighted average number of equity shares that would have been issued upon conversion of all dilutive potential equity shares.

s. Income Taxes

The tax expenses for the period comprises of current tax and deferred income tax. Tax is recognised in Statement of Profit and Loss, except to the extent that it relates to items recognised in the Other Comprehensive Income. In which case, the tax is also recognised in Other Comprehensive Income.

i. Current Tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

Notes to standalone financial statements

(Rupees in millions, except share and per share data, unless otherwise stated)

Current tax assets and liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

ii. Deferred tax

Deferred tax assets and liabilities are recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. Accordingly, MAT is recognised as deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realised.

Deferred tax assets are recognized for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences.

Deferred tax is not recognized for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of transaction;
- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that

have been enacted or substantively enacted by the end of the reporting period.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be utilised.

The group offsets deferred income tax assets and liabilities, where it has a legally enforceable right to offset current tax assets against current tax liabilities, and they relate to taxes levied by the same taxation authority on either the same taxable entity, or on different taxable entities where there is an intention to settle the current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

t. Impairment

(i) Financial assets

The Company recognises loss allowances for ECLs on financial assets measured at amortised cost.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. The application of simplified approach does not require the company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly

Notes to consolidated financial statements

(Rupees in millions, except share and per share data, unless otherwise stated)

since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort.

The Company considers a financial asset to be in default when:

- the debtor is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held); or
- the financial asset is more than 365 days past due.

Measurement of ECLs

ECLs with respect to trade receivables, the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience as well as the current economic conditions and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and allowance rates used in the provision matrix.

Credit-impaired financial assets

At each reporting date, the Company assesses whether financial assets carried at amortised cost at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the debtor;
- a breach of contract such as a default or being more than 365 days past due;
- the restructuring of a loan or advance by the Company's on terms that the Company would not consider otherwise;
- it is probable that the debtor will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

Presentation of allowance for ECL in the balance sheet

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

(ii) Non-financial assets

Goodwill and intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Intangible assets under development are tested annually for impairment. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amounts by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash flows from other assets or group of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

u. Current/ Non-current classification

The Group classifies an asset as current asset when:

- it expects to realize the asset, or intends to sell or consume it, in its normal operating cycle;
- it holds the asset primarily for the purpose of trading;
- it expects to realize the asset within twelve months after the reporting period; or
- the asset is cash or a cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

A liability is classified as current when :

All other assets are classified as non-current.

- it expects to realize the asset, or intends to sell or consume it, in its normal operating cycle;

Notes to standalone financial statements

(Rupees in millions, except share and per share data, unless otherwise stated)

- it holds the liability primarily for the purpose of trading;
- the liability is due to be settled within twelve months after the reporting period; or
- it does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents. The Group's normal operating cycle is twelve months.

v. Provisions, contingent liabilities and commitment

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, and it is probable that outflow of economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset, if it is virtually certain that reimbursement will be received and the amount of the receivable can be

measured reliably.

The Company uses significant judgements to assess contingent liabilities. Contingent liabilities are recognised when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

Contingent assets are neither recognised nor disclosed in the standalone financial statements.

w. Cash dividend to equity holders

The Company recognises a liability to make cash to equity holders when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity. Interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

x. Recent Indian Accounting Standards (Ind AS)

Ministry of Corporate Affairs (MCA) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. There are no new standards or amendments to the existing standards that are notified impacting the consolidated financial statements of the company.

Note:

In earlier years, the Company had entered into agreement with VIVO SA, Brazil on March 01, 2010 for rendering Ring Back Tone (RBT) services and made a one-time upfront payment of BRL 12.70 million (equivalent Rs 325.70 million) for a period of 5 years. The Company deducted TDS @ 20% and deposited the same with the income tax department. However, the Company was of the view that the above amount was not subject to TDS and filed an application with Authority for Advance Ruling ('AAR') seeking clarification in respect of the same. The Company had negotiated with VIVO SA, Brazil that Vivo will bear 10% of the TDS deducted and made the payment of BRL 11.43 million to Vivo Brazil. After filling the application with AAR, the Company had created a receivable of Rs 73.28 million in the books pertaining to 20% TDS amount deposited with the income tax department (after grossing up for the 10% TDS borne by the Company) and also created a deferred liability amounting to Rs. 18.83 millions as at March 31, 2025 (March 31, 2024 - Rs 21.10 millions) pertaining to 10% TDS amount payable to Vivo Brazil if the application is decided in favor of the Company. The net amount of exposure involved (net of forex gain) as at March 31, 2025 is Rs. 54.45 millions (March 31, 2024 - Rs 52.09 millions).

During the year ended March 31, 2020, application filed by the Company was disposed off by the Authority for Advance Ruling ('AAR') thereby rejecting Company's refund claim of TDS deposited earlier and hold that the amount of market access fees paid to VIVO SA, Brazil is in the nature of royalty and is liable for tax in India. During the previous year ended March 31, 2021, the Company has filed a writ application with the Honorable High Court of Karnataka in the month of June 2020. The said application is admitted by the Honorable High Court and the matter is yet to be taken up for regular hearings. The Company based on the legal evaluation believes that it will be able to sustain on appeals and accordingly no provisions are required to be recorded at this stage.

- a Claims against the company not acknowledged as debt amounts to Rs. 2285.10 million (March 31, 2024: Rs. 1,908.67 million).

Particulars	As on March 31, 2025	As on March 31, 2024	Remarks
Direct tax matters	1,074.38	675.29	The claims against the Company primarily represent demands arising on completion of assessment proceedings under the Income-tax Act, 1961. These claims are due to disallowances such as transfer pricing adjustments, disallowance of SEZ exemption benefit etc. These matters are pending before various Appellate Authorities and the management expects its position will likely be upheld on ultimate resolution and will not have any material adverse effect on the Company's financial position and results of operations
Indirect tax matter	1,210.72	1,233.38	The contingent liabilities in respect of Indirect taxes are mainly because of issues like denial of zero tax rate on export revenue, mismatch of input tax credit between amount claimed and amount available as per GST Portal etc. These matters are pending before various Appellate Authorities and the management expects its position will likely be upheld on ultimate resolution and will not have any material adverse effect on the Company's financial position and results of operations

29 B. Capital commitments

Estimated amount of contracts (net of advances) remaining to be executed on capital account and not provided for is Rs. 7.80 Million (March 31, 2024: Rs. 3.37 Million).

29 C. Other matters

During the year ended March 31, 2020, the Company had received a summon with respect to survey under section 133A of the Income Tax Act, 1961. The scope of the survey communicated to the Company was verifying the deduction under section 10AA claimed by the Company in relation to the income from its SEZ unit. During the FY 2020-21 and FY 2021-22 the Company received notices under Section 148 of the Act towards reopening of the assessment for the period from FY 2012-13 to FY 2015-16 and proposing to disallow the SEZ deduction under section 10AA granted earlier. The Company has challenged the said order and filed writ petitions (for all FY's) before the Honourable High Court of Karnataka on April 03, 2021 (for FY2012-13 to FY2014-15) and September 06, 2022 (for FY2015-16). The Honourable High Court has granted stay on the proceedings. The Company believes that there should be no adverse outcome against the Company on account of this matter.

39. A. Impairment of Gaming cash-generating unit ('CGU')

The management assesses the performance of the Group including the future projections and relevant economic and market conditions in which it operates to identify if there is any indicator of impairment / reversal impairment, in the carrying value of the CGU of the Group. For this purpose, The Group is of the view that the operations of its gaming business represent a single CGU. This includes, Goodwill, Intangible assets, Intangible assets under development and working capital of CGU.

Management performed an impairment assessment as at March 31, 2025. The recoverable value determined as Value in Use ('VIU') is higher than the carrying value of the relevant assets of the CGU as at March 31, 2025. The management has involved an independent valuer to determine the VIU. The recoverable amount of the CGU was estimated based on the present value of the future cash flows expected to be derived from the CGU (value in use), using a pre-tax discount rate of 25% and a terminal value growth rate of 3%. The recoverable amount of the CGU was estimated to be higher than its carrying amount and no impairment was required.

During the year ended 31 March 2025, the Company reassessed its estimates and no impairment loss recognized.

The estimate of value in use was determined using a pre-tax discount rate of 25% (March 2024: 25%) and a terminal value growth rate of 3% (March 2024: 3%)

During the year the Company reassessed its estimates and no impairment loss recognized (2024: Rs. Nil)

The recoverable amount of the CGU was based on the present value of the future cash flows expected to be derived from the CGU.

The key assumptions used in the estimation of the recoverable amount are set out below. The values assigned to the key assumptions represent management's assessment of future trends in the relevant industries and have been based on historical data from both external and internal sources.

Particulars	For the year ended March 31, 2025	For the year ended March 31, 2024
Discount rate	25.00%	25.00%

(Rupees in millions, except share and per share data, unless otherwise stated)

The discount rate was a pre-tax measure based on the rate of 5-year government bonds issued by the government in the relevant market and in the same currency as the cash flows, adjusted for a risk premium to reflect both the increased risk of investing in equities generally and the systematic risk of the specific CGU.

The cash flow projections included specific estimates for 5 years and a terminal growth rate thereafter. The terminal growth rate was determined based on management's estimate of the long term compound annual EBITDA growth rate, consistent with the assumptions that a market participant would make Budgeted EBITDA was estimated taking into account past experience, adjusted as follows

Revenue growth was projected taking into account the average growth levels experienced over the past years and the estimated sales volume and price growth for the next five years. It was assumed that the sales price and sales volume would increase in line with forecast inflation over the next five years.

The estimated recoverable amount of the CGU exceeded its carrying amount by approximately Rs. 5,588.28 million (2024: Rs.4,563.29 million). Management has identified that a reasonably possible change in two key assumptions could cause the carrying amount to exceed the recoverable amount. The following table shows the amount by which these two assumptions would need to change individually for the estimated recoverable amount to be equal to the carrying amount.

Fair value heirarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are recognised at fair value and amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its financial instruments under the accounting standard as follows:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities,

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices), and

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

There have been no transfers among Level 1, Level 2 and Level 3 during the period.

The management assessed that fair value of cash and short-term deposits, trade receivables, trade payables, borrowings, other current financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

- Receivables are evaluated by the Group based on parameters such as interest rates, specific country risk factors, individual creditworthiness of the customer. Based on this evaluation, allowances are taken into account for the expected losses of these receivables.
- The fair value of the unquoted mutual fund are based on market observable inputs at reporting date. The fair value of other financial liabilities is estimated by credit risk and remaining maturities.
- The Group enters into derivative financial instruments with various counterparties, principally financial institutions with investment grade credit ratings. Derivative financials instruments are valued based on quoted prices for similar assets and liabilities in active markets or inputs that are directly or indirectly observable in the marketplace.

Financial risk management

The Group's Corporate Treasury function provides services to the business, coordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations of the Group through internal risk reports which analyse exposures by degree and magnitude of risk.

The Group's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Group is foreign exchange risk along with credit risk and liquidity risk.

The Group seeks to minimise the effects of these forex by hedging the forex exposures through forward contracts, liquidity risk by diversifying its investments in various schemes of debt mutual funds and fixed deposits. The Group manages its credit risks by monitoring the credit rating of the customers, banks and mutual funds. Corporate Treasury Function reports quarterly to the Group's risk management committee, an independent body that monitors risks and policies implemented to mitigate risk exposures.

Market Risk

Market risk is the risk of any loss in future earnings, in realizable fair values or in future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rate, equity price fluctuations, liquidity and other market changes. Future specific market movements cannot be normally predicted with reasonable accuracy.

(i) Interest rate risk:

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to Group's investments. The Group's investments are primarily short term, which do not expose it to significant interest rate risk.

(ii) Foreign currency exchange rate risk:

The fluctuation in foreign currency exchange rates may have potential impact on the income statement and equity, where any transaction references more than one currency or where assets/liabilities are denominated

in a currency other than the functional currency of the respective foreign operations. The Group enters into forward foreign exchange contracts to hedge its exposure to foreign currency risk arising on the net export of services.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

Derivative financial instruments

The Group is exposed to foreign currency fluctuations on foreign currency assets/ liabilities and forecasted cash flows denominated in foreign currency. The Group follows established risk management policies, including the use of derivatives to hedge foreign currency assets/ liabilities and foreign currency forecasted cash flows. The counter party in these derivative instruments is a bank and the Group considers the risks of non-performance by the counterparty as non-material.

The following table presents the aggregate contracted principal amounts of the Company's derivative contracts outstanding:

Non designated derivative Instrument	As at March 31, 2025 Nominal Value (In Rs. Mn)	As at March 31, 2024 Nominal Value (In Rs. Mn)	Currency	As at March 31, 2025 Nominal Value (Foreign Currency in Mn)	As at March 31, 2024 Nominal Value (Foreign Currency in Mn)
Forward Contract -(SELL)	301.89	335.19	USD/INR	3.50	4.00
Total Forward contracts	301.89	335.19		3.50	4.00

The foreign exchange forward contracts mature within 12 months. The table below analyzes the derivative financial instruments into relevant maturity groupings based on the remaining period as at the reporting date:

Particulars	As at March 31, 2025 Nominal Value (In Rs. Mn)	As at March 31, 2024 Nominal Value (In Rs. Mn)
Not later than 1 month	42.46	41.68
Later than 1 month but not later than 3 months	85.28	83.37
Later than 3 months but not later than 1 year	174.16	210.14
	301.90	335.19

In respect of the Group's forward contracts, a 1% decrease/increase in the respective exchange rates of each of the currencies underlying such contracts would have resulted in:

- an approximately 0.05% increase and (0.05%) decrease in the Company's net profit and approximately 0.05% increase and (0.05%) decrease in equity as at March 31, 2025;
- an approximately 0.06% increase and (0.06%) decrease in the Company's net profit and approximately 0.05% increase and (0.05%) decrease in equity as at March 31, 2024

Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and investment securities. Credit risk arises from cash held with banks and financial institutions, as well as credit exposure to clients, including outstanding accounts receivable. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. Credit risk encompasses both the direct risk of default and the risk of deterioration of creditworthiness as well as concentration risks. The Group assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors.

i) Trade and other receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. The following table gives details in respect of revenues generated from top customer and top 4 customers of the Group:

Notes to consolidated financial statements

(Rupees in millions, except share and per share data, unless otherwise stated)

Particulars	For the year ended March 31, 2025	For the year ended March 31, 2024
Revenue from top customer	2,391.67	2,667.55
Revenue from customers contributing to more than 10% of the company	3,338.52	3,554.90

2 customer for the year ended March 31, 2025 (1 customers for the year ended March 31, 2024) accounted for more than 10% of the consolidated revenue. No other single customer contributed 10% or more of the Company's revenue for both 2024-25 and 2023-24.

Customer credit risk is managed as per the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit rating scorecard and individual credit limits are defined in accordance with this assessment.

As per Ind AS 109, the Company uses the expected credit loss model to assess the impairment loss. In determining the impairment allowance (Loss allowances for doubtful debts), the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience as well as the current economic conditions and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and allowance rates used in the provision matrix.

An impairment analysis is performed at each reporting date on an individual basis for major customers. Outstanding customer receivables are regularly and closely monitored basis the historical trend and the Company provides for any outstanding receivables beyond 365 days which are doubtful.

The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed below. The Company does not hold collateral as security. The Company evaluates the concentration of risk with respect to trade receivables as low on the basis of past default rates of its customers.

Total		806.52	74.18	

ii) Investments

The Group limits its exposure to credit risk by generally investing in liquid securities and only with counterparties that have rating of AA/AAA. The Group does not expect any losses from non-performance by these counterparties, and does not have any significant concentration of exposures to specific industry sectors.

Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they become due. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Group manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due. The Group's corporate treasury department is responsible for liquidity management, funding as well as settlement management. In addition, processes and

policies related to such risks are overseen by senior management. The Group invests its surplus funds in Bank fixed deposit and liquid and liquid plus schemes of mutual funds and short term mutual funds, which carry no/low mark to market risks.

Further, the Securities and Exchange Board of India ('SEBI') vide its circulars dated May 12, 2020, October 7, 2023 and subsequent circulars issued in this regard, the latest being October 3, 2024 ('SEBI Circulars') has provided certain relaxations from compliance with certain provisions of the SEBI Listing Regulations. In compliance with applicable provisions of the Companies Act, 2013 read with aforesaid MCA and SEBI Circulars the Annual General Meeting of the company is being conducted through VC/ OAVM. The venue of the Meeting shall be deemed to be the registered office of the Company.
3. Central Depository Services (India) Limited shall be providing facility for voting through remote e-voting, for participation in the AGM through VC/OAVM facility and e-voting during the AGM. The procedure for e-voting and participating in the meeting through VC/OAVM is provided in the instructions which forms part of this Notice. Participation at the AGM through VC/ OAVM shall be allowed on a first-come-first-served basis.
4. Since the AGM is being held in accordance with the Circulars through VC/ OAVM, the facility for appointment of proxies by the members will not be available.
5. Participation of members through VC/ OAVM will be reckoned for the purpose of quorum for the AGM as per section 103 of the Companies Act, 2013 ("the Act").
6. The Register of Directors and Key Managerial Personnel and their shareholding, maintained under Section 170 of the Act, and the Register of Contracts or Arrangements in which the directors are interested, maintained under Section 189 of the Act, Articles of Association of the Company and other relevant document mentioned in the notice, will be available electronically for inspection by the members from the date of circulation of this Notice up to the date of AGM i.e. September 23, 2025. Members seeking to inspect such documents can send an email to Investors@onmobile.com
7. **The Register of Members and Share Transfer Books of the Company shall remain closed from September 17, 2025 to September 23, 2025 (both days inclusive) for the purpose of 25th AGM of the Company.**
8. Members whose shareholding is in electronic mode are requested to direct notifications about change of address and updates about bank account details to their respective depository participants(s) (DP). Members whose shareholding is in physical mode are requested to opt for the Electronic Clearing System (ECS) mode to receive dividend on time in line with the Circulars. We urge members to utilize the ECS for receiving dividends. Please refer point no. 18 for the process to be followed for updating bank account mandate.
9. Members are requested to address all correspondence, including dividend matters, to the Registrar and Share Transfer Agents ("RTA"), KFin Technologies Limited (Unit: OnMobile), Selenium Tower- B, Plot No. 31 & 32, Financial District, Nanakramguda, Serilingampally Mandal, Hyderabad – 500 032, Telangana, India. Member(s) must quote their Folio Number/DP ID & Client ID and contact details such as email address, contact number etc., in all correspondences with the RTA.
10. In case of joint holders, the Member whose name appears as the first holder in the order of names as per the Register of Members of the Company will be entitled to vote at the AGM.
11. As per Regulation 40 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("the Listing Regulations"), as amended, securities of listed companies can be transferred only in dematerialized form with effect from April 01, 2019. Further, SEBI vide its Circular No. SEBI/HO/MIRSD/ MIRSD_RTAMB/P/CIR/2022/8 dated January 25, 2022, mandated listed companies to issue shares in dematerialized form only while processing the service requests including transmission and transposition of securities. In view of this and to eliminate all risks associated with physical shares and for ease of portfolio management, members holding shares in physical form are requested to consider converting their holdings to dematerialized form. Members can contact the Company or Company's Registrars and Share Transfer Agents, KFin Technologies Limited for assistance in this regard.
12. Members wishing to claim dividends, which remain unclaimed, are requested to correspond with the RTA as mentioned above, or with the Company Secretary,

at the Company's registered office. Members are requested to note that dividends not encashed or claimed within seven years from the date of transfer to the Company's Unpaid Dividend Account, will, as per Section 124 of the Companies Act, 2013 be transferred to the Investor Education and Protection Fund ("IEPF"). Shares on which dividend remains unclaimed for seven consecutive years will be transferred to the IEPF as per Section 124 of the Act and the applicable rules.

Pursuant to The Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016, the Company is providing / hosting the required details of unclaimed amount referred to under Section 124 of the Companies Act, 2013 on its website www.onmobile.com and also on the website of the Ministry of Corporate Affairs (MCA) viz., www.iepf.gov.in.

13. In compliance with Section 108 of the Act, read with the corresponding rules, Regulation 44 of the Listing Regulations and Secretarial Standard on General Meetings (SS-2), the Company has provided a facility to its members to exercise their votes electronically through the electronic voting ("e-voting") facility provided by the Central Depository Services (India) Limited (CDSL). Members who have cast their votes by remote e-voting prior to the AGM may participate in the AGM but shall not be entitled to cast their votes again. The manner of voting remotely by members and during the AGM is provided in the instructions below. The Board of Directors of the Company have appointed Pramod S M, BMP & Co. LLP., (Membership No. FCS 7834) (CP No. 13784), Practicing Company Secretaries as the Scrutinizer, for conducting e-voting process in a fair and transparent manner and he has communicated his willingness to be appointed and will be available for the purpose.
14. The e-voting period commences on Friday, September 19, 2025 at 9.00 IST and ends on Monday September 22, 2025 at 5.00 p.m. IST. During this period, members holding shares either in physical or dematerialized

form, as on cut-off date, i.e. as on September 16, 2025 may cast their votes electronically. The e-voting module will be disabled by Central Depository Services (India) Limited ('CDSL') for voting thereafter. A member will not be allowed to vote again on any resolution on which vote has already been cast. The voting rights of members shall be proportionate to their share of the paid-up equity share capital of the Company as on the cut-off date, i.e. as on September 16, 2025.

15. The facility for voting during the AGM will also be made available. Members present in the AGM through VC/ OAVM and who have not cast their vote on the resolutions through remote e-voting and are otherwise not barred from doing so, shall be eligible to vote through the e-voting system during the AGM.
16. Any person who becomes the member of the Company after dispatch of the Notice of the Meeting and holding shares as on the cut-off date may refer to the instructions below for generating User ID and password for casting his votes through remote e-voting.

19. SEBI, vide its Master Circular dated May 17, 2023 and subsequent notifications thereto, had made it mandatory for holders of physical securities to furnish details of PAN, KYC (Postal Address, Mobile Number, E-mail, Bank Details, Signature) and Nomination / Optout of Nomination.
- In order to mitigate unintended challenges on account of freezing of folios and referring frozen folios to the administering authority under the aforesaid Acts, SEBI, vide its Circular dated November 17, 2023, has done away with the provision regarding freezing of folios lacking PAN, KYC, and Nomination details or referring them to the administering authorities.
- Further SEBI has mandated that with effect from April 1, 2024, dividend to security holders (holding securities in physical form), shall be paid only through electronic mode. Such payment shall be made only after furnishing the PAN, choice of nomination, contact details including mobile number, bank account details and specimen signature.
- In view of the above, we urge Members holding shares in physical form to submit the required forms along with the supporting documents at the earliest. The relevant forms are available on the Company's website at https://www.onmobile.com/investors/investor_services and on the website of the RTA at <https://ris.kfintech.com/clientservices/isc/isrforms.aspx>. Further, relevant FAQs published by SEBI on its website can be viewed at the following link: https://www.sebi.gov.in/sebi_data/faqfiles/jan-2024/1704433843359.pdf.
20. SEBI vide its Circulars dated July 31, 2023, and August 4, 2023, read with Master Circular dated July 31, 2023 (updated as on August 11, 2023), has established a common Online Dispute Resolution Portal ("ODR Portal") for resolution of disputes arising in the Indian Securities Market.
- Pursuant to above-mentioned circulars, post exhausting the option to resolve their grievances with the RTA/ Company directly and through existing SCORES platform, the investors can initiate dispute resolution through the ODR Portal (<https://smartodr.in/login>)
21. Members may also note that the Notice of the 25th AGM and the Annual Report 2024-25 will also be available on the Company's website, <https://www.onmobile.com/>, websites of the Stock Exchanges, i.e. BSE Limited and National Stock Exchange of India Limited, at www.bseindia.com and www.nseindia.com respectively, and on the website of CDSL www.cDSL.com

EXPLANATORY STATEMENT PURSUANT TO SECTION 102(1) OF THE COMPANIES ACT, 2013

Item No. 3

Paul Lamontagne who was appointed earlier as an Independent Director at the AGM held on September 29, 2021 to hold office for a period of five years upto December 16, 2025 pursuant to the provisions of Companies Act, 2013, is due to complete his first term on December 16, 2025. The Nomination and Compensation Committee of the Board of Directors, based on the evaluation of his performance during the tenure and considering his skills, experience, knowledge and expertise, has recommended re-appointment of Paul Lamontagne as an Independent Director of the Company for another term of five years w.e.f. December 17, 2025 upto December 16, 2030 not liable to retire by rotation.

The Company has, in terms of Section 160(1) of the Companies Act, 2013, received in writing a notice from a shareholder, proposing the candidature of Paul Lamontagne for the office of Independent Director.

The resolution seeks the approval of the shareholders for reappointment of Paul Lamontagne as an Independent Director of the Company for a term of five years w.e.f. December 17, 2025 upto December 16, 2030 pursuant to Section 149 and other applicable provisions of the Companies Act, 2013, and the Rules made there under. He is not liable to retire by rotation.

The Company has received from Paul Lamontagne (i) consent in writing to act as director in Form DIR-2 pursuant to Rule 8 of The Companies (Appointment & Qualification of Directors) Rules, 2014, (ii) intimation in Form DIR-8 in terms of The Companies (Appointment & Qualification of Directors) Rules, 2014, to the effect that he is not disqualified under sub-section (2) of Section 164 of the Companies Act, 2013, confirming his eligibility for such re-appointment, and (iii) a declaration to the effect that he meets the criteria of independence as provided in sub section (6) of Section 149 of the Companies Act, 2013.

In the opinion of the Board, Paul Lamontagne fulfils the conditions specified in the Companies Act, 2013 and Rules made thereunder for re-appointment as an Independent Director of the Company and is independent of the Management. A copy of the draft letter of re-appointment of Paul Lamontagne as an Independent Director setting out the terms and conditions would be available for inspection without any fee by the members in electronic form as per the instructions provided in the Notice

The Board considers that his continued association would be of immense benefit to the Company and it is in the interest of the Company to continue to avail the services of Paul Lamontagne as an Independent Director.

No director, key managerial personnel or their relatives, except Paul Lamontagne to whom the resolution relates, is

interested in or concerned with the resolution.

The Board recommends the special resolution set forth in Item No. 3 for the approval of the shareholders.

Item No. 4

This explanatory statement is provided in accordance with Regulation 36(5) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations").

In accordance with Section 204 of the Companies Act 2013, read with the rules framed thereunder, and Regulation 24A of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations"), every listed entity is required to undertake Secretarial Audit by a Peer Reviewed Secretarial Auditor who shall be appointed by the Members of the Company, on the recommendation of the Board of Directors, for a period of five consecutive years

Based on the recommendation of the Audit Committee, the Board, at its Meeting held on May 20, 2025, subject to the approval of the Members of the Company, approved appointment of Parameshwar G Hegde of Hegde & Hegde (Reg No FCS 1325/C. P. No. :640), Company Secretary in Practice as the Secretarial Auditor of the Company, for a term of five (5) consecutive financial years commencing from 2025-26 to Financial Year 2029-30.

Parameshwar G Hegde, Company Secretary-in-Practice, established in the year 1987, is a Fellow member of the ICSI, and in practice for over 35 years in the areas of corporate laws, SEBI/Securities market regulations, FEMA, FDI/ODI, RBI matters, collaborations, JVs, shareholders agreements, mergers & acquisitions, IPOs, ESOPS Startups, Industrial and Labour Laws etc. The firm is Peer Reviewed and Quality Reviewed by the Institute of the Company Secretaries of India. He holds a valid Peer Review Certificate issued by the Institute of Company Secretaries of India (ICSI). The practicing unit is also Quality Reviewed by the ICSI, ensuring the highest standards of professional practice and conduct.

Parameshwar G Hegde, Company Secretary in Practice had consented his appointment as the Secretarial Auditor of the Company and have confirmed that they fulfill the criteria as specified in Clause (a) of Regulation 24A (1A) of the SEBI Listing Regulations and have not incurred any of the disqualifications as specified by the Securities and Exchange Board of India.

Board of Directors based on recommendations of Audit Committee from time to time, will decide the remuneration payable to Parameshwar G Hegde (Reg No FCS 1325/C. P. No. :640), Company Secretary in Practice.

Accordingly, the consent of the Shareholders is sought for approval of the aforesaid appointment of the Secretarial Auditor.

No director, key managerial personnel or their relatives to whom the resolution relates, is interested or concerned in the resolution.

The Board recommends the ordinary resolution set forth in Item No. 4 for the approval of the shareholders.

Item Nos. 5 & 6

In terms of Regulation 23 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations") as amended, any transaction with a related party shall be considered material, if the transaction(s) entered into/to be entered into individually or taken together with the previous transactions during a financial year, exceeds Rs.1,000 crore or 10% of the annual consolidated turnover of the Company as per the last audited financial statements of the Company, whichever is lower, shall require prior approval of Members through resolution. The said limits are applicable even if the transactions are in the ordinary course of business of the concerned company and at an arm's length basis.

Further, as per Regulation 2(1)(zc) of the SEBI Listing Regulations, the definition of Related Party Transaction ('RPT') includes a transaction involving a transfer of resources, services or obligations between a listed entity or any of its subsidiaries on one hand and a related party of the listed entity or any of its subsidiaries on the other hand, regardless of whether a price is charged or not.

Based on the above applicable provisions and considering that 10% of the annual consolidated turnover of the Company as on March 31, 2025 amounts to INR 578.9 million, the materiality threshold for seeking shareholders' approval has been determined. Accordingly, in line with this materiality threshold Company has assessed the related party transactions as material in nature. Accordingly, the Board of Directors based on recommendations of the Audit Committee, is seeking the approval of the Members for resolutions set out at item nos. 5 & 6 of this notice.

THE INTRUCTIONS FOR SHAREHOLDERS FOR E-VOTING AND ATTENDING THE AGM THROUGH VC/OAVM ARE AS UNDER:

Step 1 : Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

Step 2 : Access through CDSL e-Voting system in case of shareholders holding shares in physical mode and non-individual shareholders in demat mode.

- (i) The voting period begins on Friday, September 19, 2025 at 9.00 a.m. IST and ends on Monday, September 22, 2025 at 5.00 p.m. IST. During this period shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date of September 16, 2025 may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public

non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

Step 1: Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

- (iv) In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

Disclaimer

In this Annual Report, we have disclosed forward looking information to enable investors to comprehend our prospects and take informed investment decisions. This report and other statements - written and oral - that we periodically make, contain forward looking statements that set out anticipated results based on management's plans and assumptions. We have tried, wherever possible, to identify such statements by using words such as 'anticipate', 'estimate', 'expects', 'projects', 'intends', 'plans', 'believes' and words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward looking statements will be realised, although we believe we have been prudent in our assumptions. The achievement of results is subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risks or uncertainties materialise, or should underlying assumptions prove inaccurate, actual results could vary materially from anticipated, estimated or projected. Readers should bear this in mind. We undertake no obligation to publicly update any forward looking statements, whether as a result of new information, future events or otherwise.
